YOUR PROGRESS  
LET US KNOW

# CLEARFIELD PROGRESS

THE WEATHER  
Cloudy tonight and not quite  
so cold; Wednesday, cloudy  
and warmer.

VOLUME XVII

THE CLEARFIELD PROGRESS, CLEARFIELD, PA. WEDNESDAY EVENING, JANUARY 17, 1923.

NUMBER 14

## RUHR OPERATORS AND MINERS DEFY FRENCH GOVERNMENT'S DEMAND FOR COAL SUPPLY

Thysson and Three of  
Biggest Operators Are  
Notified of Arrest On  
Refusal to Operate.

### SITUATION TENSE

Berlin, Jan. 17.—German Gov-  
ernment mine directors and  
miners meeting at Dusseldorf to-  
day unanimously resolved not to  
obey French orders about coal  
deliveries.

Paris, Jan. 17.—The Germans de-  
fied the Reparations Commission to-  
day, refusing to appear when sum-  
moned in regard to deliveries of ben-  
zol to the Allies. The Commission  
thereupon adjourned.

London, Jan. 17.—August Thyssen  
and three other German coal barons  
were arrested by the French today for  
persisting in refusal to obey Gen-  
eral Simons' orders regarding coal  
deliveries according to reports here.  
The Germans were not taken into  
custody but were told to consider  
themselves under arrest.

Essen, Jan. 17.—German mine  
operators in the Ruhr defied French  
threats of arrest and confiscation  
and refused today to deliver coal as  
demanded.

The French as a further punitive  
step ordered the Army of Occupation  
to seize more Ruhr lands. Troops  
advanced toward Muenster, which  
is outside the zone originally desig-  
nated for occupation and their march  
toward Hagen was expected before  
the day is over.

General DeGoutte had summoned  
the operators and threatened them  
with court martial and arrest if de-  
liveries did not commence this morn-  
ing.

The French General met defiance  
from every side. August Thyssen  
ignored him and Hugo Stinnes moved  
his company headquarters from  
Mulheim to Hamburg.

If the French make good their run  
on the mines the Germans declare a  
general strike in the Ruhr will fol-  
low.

Berlin, Jan. 17.—Hugo Stinnes,  
Germany's greatest industrial leader  
for years one of the bloodiest bat-  
tles of history if the French seize  
and work the mines at the point of  
the bayonet.

Showing the hard headedness of  
the sturdy Westphalians, he be-  
lieved there is a possibility of a ghast-  
lier time than when the Cilians  
drove out the French in the 13th  
century mid scenes of murder and  
arson—an historical event that has  
come to be known as Cilian ves-  
pers.

The Westphalian is a German  
through and through. His father and  
his grandfather before him worked in  
the mines and he takes pride in that.

According to Stinnes' view, they  
will not brook being driven to the  
pit of the mines at the point of a  
bayonet and sound by "French har-  
ness."

Stinnes drew a picture of these  
men in the bowels of the earth troop-  
ing from the mines some morning to  
attack the French in one of the blood-  
iest battles in the mine fields ever  
known.

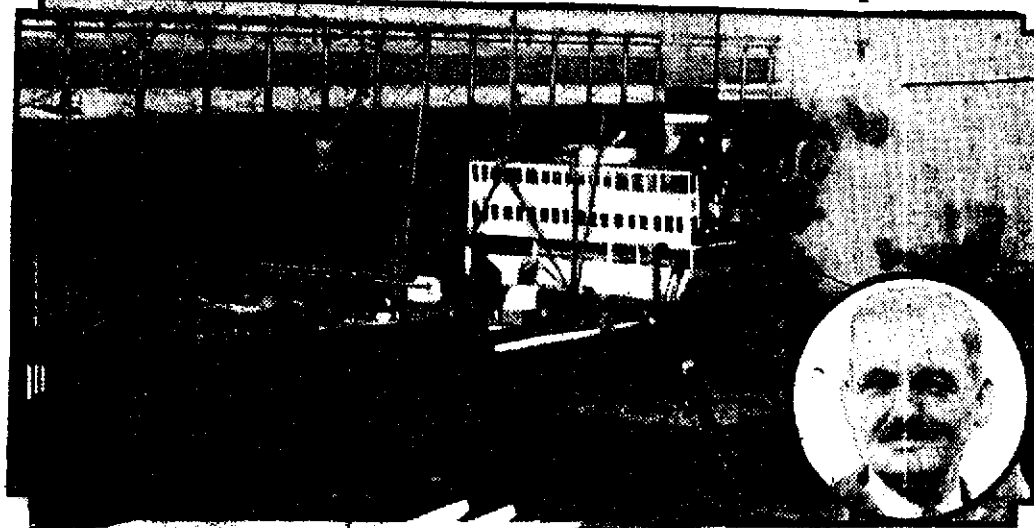

## FIVE CHILDREN ARE SUFFOCATED WHEN THEY LOCK THEMSELVES IN CLOSET TO ESCAPE FLAMES WHICH BURNED HOME

Binghampton, N. Y., Jan. 17.—  
Huddled together in a clothes press  
where they had gone seeking refuge  
from the five children of Mr. and  
Mrs. Joseph Kopatis were found  
dead of suffocation today.

Firemen, who penetrated the  
flames think it cut off the children  
after their parents, cut and bleed-  
ing had been found outside, were  
forced to break open the press.

Firemen, who penetrated the

## Army Transport Sails for Rhine Troops

The army transport St. Michel commanded by Captain Woodbury Oliver (inset) is shown here steaming up at her dock in Brooklyn, N. Y., at the beginning of her voyage to bring back the American troops on the Rhine.

## Powerful Forces At Grips Over Policy

### Capitalists Want To Raise Bars; Labor Desires Further Restriction

By WILLIAM J. LOSE  
(United Press Staff Correspondent)

Washington, Jan. 17 (United  
Press).—Powerful forces have come  
to grips here to determine who shall  
dictate the writing of the nation's  
immigration policy, now under con-  
sideration by Congress.

Two years ago, when post-war  
mass migration of Europe's destitute  
populations to this country seemed  
imminent, Congress threw out a bul-  
wark in the form of the present  
"three per cent" law, limiting im-  
migration from any country to 3 per  
cent annually of the total number of  
nationals of that country in the  
United States in 1910.

Behind this, Congress announced  
it would draft a carefully drawn,  
close woven permanent policy, taking  
into consideration all the manifold  
questions connected with immigra-  
tion.

London, Jan. 17.—The German  
mark was eighty three thousand  
to the pound sterling at the  
London exchange today.

## TWO ESCAPE FROM HOLLIDAYSBURG JAIL THRU WINDOW

Altoona, Pa., Jan. 17.—Sam An-  
drias who was sentenced to the West-  
ern Penitentiary on a dynamiting  
charge and John Roache, a cell mate  
escaped from the Blair county jail  
early this morning by crawling  
through a narrow window and drop-  
ping to the ground.

## FIVE CHILDREN ARE SUFFOCATED WHEN THEY LOCK THEMSELVES IN CLOSET TO ESCAPE FLAMES WHICH BURNED HOME

Binghampton, N. Y., Jan. 17.—  
Huddled together in a clothes press  
where they had gone seeking refuge  
from the five children of Mr. and  
Mrs. Joseph Kopatis were found  
dead of suffocation today.

Firemen, who penetrated the  
flames think it cut off the children  
after their parents, cut and bleed-  
ing had been found outside, were  
forced to break open the press.

Firemen, who penetrated the

With the passage of a year, Con-  
gressional immigration authorities  
were little nearer the completion of  
their task than when they started it.  
So monumental did the undertaking  
appear when once fully comprehended  
that these men had little hesita-  
tion in urging Congress to extend  
the "three per cent" ban for two  
years longer, until June 30, 1924, to  
give more time to a solution of the  
problem of a permanent policy. This  
Congress did in the spring of 1922.

Since that time, an industrial re-  
vival has evolved from the depression  
into which the country was  
plunged by postwar deflation. The  
problem of unemployment which  
troubled the Administration to such  
an extent that it called a special con-  
ference to debate its solution in the  
winter of 1921 has disappeared.

Labor Shortage  
In its place is raised the problem  
of a labor shortage. For a remedy  
(Continued on Page Two)

## SLAYER OF BRUNEN GETS TWENTY TO THIRTY YEAR TERM

Mount Holly, N. J., Jan. 17.—Chas  
Powell, who killed "Honest John"  
Brunen, circus owner was sentenced  
to serve twenty to thirty years in  
prison by Judge Caliph in Supreme  
Court. The murder was done in  
Brunen's Riverside Home, New Jer-  
sey on March 10th last.

## CLAY MINER DIES AT HOME AT SALEM

His spine fractured by a fall of  
rock in the clay mine on May 21,  
1918, and bedfast since that time,  
Fleming Waple passed away at his  
home at Salem, Clearfield county, on  
Sunday, Jan. 14th.

The deceased, who was born April  
9, 1892 was married, but had no chil-  
dren. He belonged to the Clearfield  
Red Men's organization.

Funeral services will be held at  
the Waple residence at Salem at 2  
o'clock Wednesday afternoon and the  
remains taken to Bigler for burial.

Miss Lela Hall of Hyde returned  
Saturday from a three month's visit  
with relatives and friends in Phila-  
delphia and New York.

Samuel L. Warner, general manag-  
er of the Clearfield Sewer Pipe  
Works, is attending the annual meet-  
ing of the company at Akron, Ohio.

## OPEN HEARING NEARS END AS WITNESSES REFUSE TO TESTIFY

Bastrop, La., Jan. 17.—Witnesses  
called to the open hearing in the More-  
house Parish reign of terror began  
fighting back today.

Objection to further examination  
of E. Gray was raised today by W.  
Barnett, who announced he had been  
retained as counsel. "We learn  
from published reports and from  
other testimonies that he is being the  
first to be accused in a sense in this  
affair," Barnett told the Court. "He  
has retained counsel and we decline to  
answer any further question for the  
reason that it might be used to in-  
timidate me, or that testimony given  
now might incriminate me."

Barnett in his address to the Court  
also revealed that a number of oth-  
ers, expecting to be called as wit-  
nesses, have retained counsel.

## HARDING IMPROVES

Washington, Jan. 17.—President  
Harding showed vast improvement  
from the attack of gripe which  
caused him to leave his desk yester-  
day and was confined to his room to-  
day.

The President's condition result-  
ing from a severe cold of a week's stand-  
ing is not serious but Dr. Sawyer,  
his personal physician, desires that  
he remain quietly in his room and  
not tax his strength for a day or two.

## LEAVING FOR CALIFORNIA

B. F. Minnick and daughter, Miss  
Blanche Minnick, Clearfield resi-  
dents for many years, have disposed  
of their Third street property and  
leave at noon tomorrow for Califor-  
nia, it being their intention to make  
their future home on the Pacific  
coast. Their many Clearfield friends  
regret very much to lose these good  
people from our midst, but unite in  
wishing them God-speed on their  
journey and every success in their  
new home.

## POPULAR YOUNG PEOPLE WED

Miss Thelma Althea Carr and Ar-  
thur Charles Swisher, formerly of  
Phillipsburg, but for some time a re-  
sident of Clearfield, surprised their  
many friends by quietly slipping  
down to the Presbyterian parsonage  
on Tuesday morning, Jan. 16th, and  
having Rev. Dr. E. C. Reeve say the  
words which united them in the holy  
bonds of matrimony.

They were attended by the bride's  
mother, Mrs. Earl Carr. Dr. Reeve  
used the beautiful ring ceremony of  
the Presbyterian church.

The happy young couple are well  
known in this community. The bride  
is the daughter of Mr. and Mrs. Earl  
Carr, of Clearfield street, while the  
groom is the son of Harry Swisher,  
of Phillipsburg. Their many friends  
wish them a long and happy married  
life. They will reside in Clearfield.

## To Argue The Consolidation of Railway Systems

Washin-ton, Jan. 17 (United  
Press).—Three great system-consol-  
idations of western transcontinental  
railroads and their feeders in the  
rich agricultural regions of the mid-  
dle west, as tentatively drafted by  
the interstate Commerce Commission  
and proposed to the railroads invol-  
ved, were to be submitted to argu-  
ment before the commission here  
today.

Plung across the vast domain  
west of the Mississippi in three par-  
allel bands from Chicago to San Fran-  
cisco, the consolidations would carry  
the bulk of the nation's transcon-  
tinental traffic.

The consolidations under discus-  
sion here today are of the Union Pa-  
cific with the Chicago and Northwest-  
ern System No. 12; the Atchison To-  
peka and Santa Fe with the Western  
Pacific (including the Denver and  
Rio Grande) System No. 16; and of  
the Southern Pacific with the Chic-  
ago, Rock Island and Pacific System  
No. 17. Other minor roads are in-  
cluded in each consolidation as feed-  
ers to the main trunks.

The purpose of the consolidation  
proposed by the Commission under  
the authority of the Transportation  
Act of 1920 is to strengthen the  
country's network of carriers by  
grouping weak roads with strong,  
and to enhance the public interest by  
creating great competitive systems  
in the nation's several regional sub-  
divisions, such as the Northwest,  
the Southwest and the Mississippi Val-  
ley. At the same time, the Commis-  
sion is endeavoring to create sys-  
tems of approximately the same val-  
uations, so that uniform rates may  
be charged over the whole country,  
all under the direction of the Com-  
mission.

The commission has previously  
held hearings on consolidations in  
Southeastern and Northwestern  
United States. Objections to its  
plans were voiced by the carriers in-  
volved in both sets of hearings. Sim-  
ilar objections are expected to be  
advanced by the roads involved in to-  
day's hearings. The Union Pacific  
in particular is violent in its oppo-  
sition to the Commission's plan to  
bracket the Central Pacific (now part  
of the Southern Pacific interests)  
with the Southern Pacific, because  
such grouping would shut the Union  
Pacific out of the port of San Fran-  
cisco. The Union Pacific now uses  
the Central Pacific under an agree-  
ment.

As the financial outlay will be large  
the Club is arranging a series of  
money-making affairs to defray ex-  
penses. Mr. Geynet of the silk mill  
kindly offered his recreation hall to  
be used for this purpose and a pro-  
gressive card party will be given  
there Friday evening, Jan. 19, at 8  
o'clock.

As all the money realized at this  
party will be used for the benefit of  
the town, it should be well attended  
and the good work helped along.  
The bus which leaves the Court House  
at 8:10 goes right by the door and  
will be there to bring you back.

Willis Lindgren spent yesterday in  
Irvona.

The E. E. Lindemuth family and  
friends returned to Bradford yester-  
day.

Mrs. Geo. W. Thomas, of South  
Fourth street, left today for Pinellas  
Park, Florida, where she will remain  
for some time.

Mrs. Myles Thomas left today for  
a visit to her home in San Antonio,  
Texas.

## Women Leaders from 35 Nations To Attend Conference In U. S.

### International Council of Women To Hold Sessions At Washington

Philadelphia, Jan. 17. (U. P.)—The  
Quinquennial of the International  
Council of Women, is to be held in  
this country, probably at Washing-  
ton, during the early summer of 1925,  
according to Mrs. Nathaniel E. Har-  
ris, vice president of the National  
Council of Women and chairman of  
the Quinquennial Committee.

The International Council of Wom-  
en is a Federation of National  
Councils of Women in thirty-five  
countries, for the promotion of unity  
and mutual understanding between  
all associations of women working  
for the common welfare of humanity.

It was formed in Washington in  
1888 and, after the World's Fair at  
Chicago in 1893, the Council spread  
to Europe. The last Quinquennial  
was held in Kristiana, Norway in  
June, 1920.

Delegates from the following coun-  
tries will attend the Quinquennial in  
Washington: Canada, Sweden, Great  
Britain, Ireland, Denmark, Holland,  
Australia, New Zealand, Italy,  
France, Argentina, Switzerland, Aus-  
tria, Hungary, Norway, Belgium,  
Greece, Jugo-Slavia, Finland, South

Africa, Portugal, Uruguay, Ukraine,  
Iceland, Russia, Mexico, Roumania,  
Chile, Estonia, Poland, China, Tur-  
key, Latvia and Germany.

It is not possible at this early  
date to estimate the number of dele-  
gates and visitors we may expect to  
come to our Quinquennial, as each  
National Council is entitled to ten  
delegates and ten alternates, with  
all visitors are also welcome," Mrs.  
Harris told the United Press.

Many May Be Too Poor.  
"The depreciation in exchange, un-  
less righted, will possibly have an  
effect upon those countries impover-  
ished by the war. Yet a splendid in-  
terest exists and we have every rea-  
son to expect a large number of dele-  
gates."

"Prominent among the subjects of  
study and consideration by the dele-  
gates will be those of permanent  
peace and international arbitration.  
These two questions will provide an  
important part of our program along  
with equal moral standard for men  
and women, public health, education,  
immigration, immigration, the prof-  
(Continued on Page Two.)

## SYSTEM OF DISPENSING AID TO STATE CHARITIES FIRST BIG PROBLEM THAT INCOMING GOVERNOR HAS TO FACE

### WOMEN'S CLUB IS ENGAGED IN HAVING STREETS MARKED

Strangers arriving in Clearfield by  
way of our railroads and desiring to  
reach some definite locality in the  
town are often put to great incon-  
venience before they arrive there.

At the passenger station some one  
can always be found to give them the  
general direction, but after that  
they must ask from square to square  
for their destination.

Even the people who have been  
born and raised here in Clearfield do  
not know the names of the various  
streets, especially in the newly devel-  
oped parts of town.

The need for the proper marking of  
streets—the names being clearly  
shown on at least one corner of the  
two intersecting streets—is certainly  
recognized by all those who wish to  
have Clearfield rank as an up-to-date  
town.

The Women's Club, realizing the  
need of these markers, sent a repre-  
sentative to the Borough Council  
asking permission to put them up.  
This was granted and the work will  
be commenced in the near future.

The Club will purchase a No. 1  
ceramic markers, to be put up in a  
neat workmanlike manner, the whole  
to be of a good substantial character  
to last indefinitely. Personal re-  
quest will be made of property own-  
ers, by members of the Club, for per-  
mission to place the same on their  
premises.

As the financial outlay will be large  
the Club is arranging a series of  
money-making affairs to defray ex-  
penses. Mr. Geynet of the silk mill  
kindly offered his recreation hall to  
be used for this purpose and a pro-  
gressive card party will be given  
there Friday evening, Jan. 19, at 8  
o'clock.

As all the money realized at this

State Printing Also Is  
Getting Attention from  
Advisers, Who Have  
Program Prepared.

## WILL STANDARDIZE

Philadelphia, Pa., Jan. 17. (U. P.)  
—Governor Gifford Pinchot will re-  
commend many changes in the state  
charity aid system and advise state  
printing reforms when his budget is  
presented to the legislature, either  
the latter part of this month or early  
in February.

The Governor will be guided by his  
"Citizens' Committee of Eighteen"  
which investigated state finances. A  
resume of the committee's report on  
charity aid follows:—

"An urgent recommendation that  
the state's appropriations to private  
charitable institutions shall be made  
hereafter as compensation for service  
rendered and not as legislative fav-  
ors.

"The present method of making  
these grants in the shape of separate  
lump sum appropriations to more  
than 300 designated institutions, is  
characterized as haphazard, unscien-  
tific and inequitable, capable of seri-  
ous political abuse, calculated to  
bring increasing burdens upon the  
Commonwealth and yet to prevent  
the development of a well-balanced,  
adequate and effective system of wel-  
fare agencies in the state.

"The present method of appropria-  
tion results in gross inequalities of  
treatment between institutions in  
substantially the same circumstan-  
ces."

The committee, headed by K. L. M.  
Pray, director of the Pennsylvania  
School of Social and Health Work,  
recommended the following:

"1. That state aid be confined to  
three great classes of agencies—hos-  
pitals, institutions, and agencies for  
the care of dependent, neglected and  
delinquent children, and homes for  
the aged and infirm.

"2. Appropriations to institutions  
of the three classes proposed should  
be made, not in separate, individual  
sums, but in one general appropria-  
tion to each class to be paid out to  
individual institutions in accordance  
with the actual service rendered to  
patients for whom the state accepts  
responsibility.

"3. The state's compensation should  
not in any case be given for service  
to any person, who by himself or by  
any responsible relative, estate or  
corporation, or through any insur-  
ance or other relief fund to which he  
is entitled, is able to pay the whole  
cost of the service rendered to him at  
the rate fixed in the department's  
schedule.

"4. The states compensation of any  
agency should not amount to the to-  
tal cost of the service rendered to  
'free patients,' but only to some fixed  
part, say 60 per cent., of the cost,  
which should be uniform for all agen-  
cies of the same class and grade.

"5. That in the event that the fund  
appropriated is not adequate to pay  
for service of any class of agencies  
at the rate fixed, the fund available  
be apportioned pro rata among the  
agencies, in the proportion to the  
amount earned."

The state printing system is in  
need of recasting, according to Dr.  
Clyde L. King, who made a survey  
of that industry for Governor Pin-  
chot.

To put the state's printing and  
binding on a new basis some new  
laws will be required.

"The present specifications which  
are part of the law of the state are  
so loosely drawn as to definitely pro-  
hibit any conservative business man  
from bidding for the work," Dr. King  
reported. Dr. King's recommenda-  
tions follow:

"That the state discontinue its  
present practice of furnishing its  
own paper in connection with print-  
ing and binding and thereafter con-  
tract for each piece of printing and  
binding as a unit, including paper.

"All of the state work should be  
brought within a limited number of  
different layouts and styles of com-  
position. These various forms should  
(Continued on Page 4.)

Powerful Forces

(Continued From Page One.)

sion and industrial position of a woman and child welfare.

"Many of us will meet for the first time in 1925 as full citizens, with all the responsibilities, as well as all the privileges of citizenship, and it is for us to prove that it was worth while for the world to have made her women citizens and to have called them to her aid.

"The greatest opportunity lies before the women of America, that of really serving the women of the world and, through the women, all humanity."

Founded in 1893.

The National Council of Women of the United States was founded by Susan L. Anthony in 1893. It is composed of thirty-eight of the foremost national organizations of women in the United States, having an aggregate membership of 11,000,000 women.

Among these societies are the National League of Women Voters, General Federation of Women's Clubs, Young Women's Christian Association, Women's Christian Temperance Union, Council of Jewish Women, National Congress of Mothers and Parent Teachers' Association, National Women's Relief Corps, American Association of University Women, Ladies of the G. A. R., Ladies of the Macabees, Medical Women's National Association and others equally important.

"The Council serves as a clearing house for all these organizations," said Mrs. Harris. "It aims to initiate and stress only such national plans as are not undertaken by any constituent organization. Its attainments, however, are the sum total of all the work and all the attainments of all the organizations within the Council.

"Perhaps it is not generally realized that the women workers for social welfare all over the world have al-

ready, for many years, been linked together in a League of Nations under a banner which if carried to victory would transform all international relations."

Women Leaders

(Continued From Page One.)

for this hopeful industrialists have turned to Congress for relaxation of the immigration bars to encourage a flow of labor into this country.

Bitterly opposed to what they term a selfish and dangerously narrow attitude toward the national welfare, is a vast host of people who are fighting any modification of present immigration restriction laws and who even seek to impose on Congress a conviction that the national welfare demands more drastic restriction than ever yet attempted.

These are the two factions that are grips on Capitol hill today.

Both parties will contend bitterly that their wills shall prevail. Each will exert its utmost to carry the day.

For the agitation over modification of the present restriction law is considered here as the first phase of a struggle to dictate the form and spirit of the "permanent national policy."

A Permanent Policy

In many quarters, the present law, which expires eighteen months hence, is regarded as the last "make-shift" piece of immigration legislation which Congress will attempt. Interested parties in the contest are bringing up regiments of documents and statistics.

Every conceivable pressure is being brought to bear on Congress by organized bodies which have an interest in the outcome of the battle. Professional press agents are busy grinding out propaganda pro and con.

In this atmosphere surcharged

with tension, Congress is preparing to legislate on a problem, the solution of which may be felt "even unto the hundredth generation." For immigration is not the importation of grain or coal or lumber, but of human flesh and blood, human beings whose descendants will inherit the American republic and continent generations to come.

68% OF FRANKLIN CARS SHIPPED DURING 1922 WERE OF CLOSED TYPE

Syracuse, N. Y.—Statistics just compiled by the sales department of the Franklin Automobile Company show during the year just ended, 68% of Franklin shipments were closed cars, an increase of 16% over the preceding year. In 1919, Franklin closed car shipments represented 28% of the whole. In 1920, the percentage was 45% and in 1921 it was 52%.

In commenting on the fact that

Franklin closed car shipments had increased 40% within three years' time and that the present day demand for Franklin closed car models was so great that better than two-thirds of the factory production was concentrated on closed cars, Sales Manager S. E. Ackerman said:—"So far as we can learn, no other manufacturer is turning out such a large percentage of closed cars. Six of our seven models are closed cars. The popularity of the closed car seems to be increasing all the time."

Be sure the people you sell The Progress to are not taking it now. They must be new subscribers. Every subscription will be verified and dollars collected from old subscribers will be returned and you will have to get one to take his place.

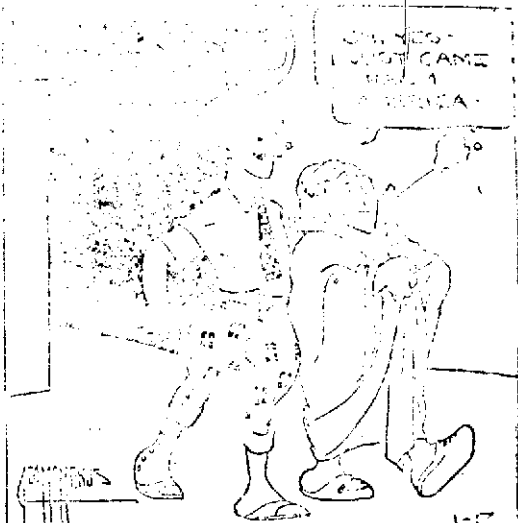

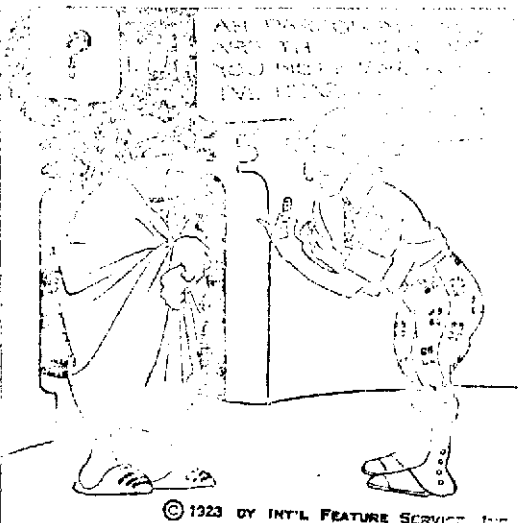

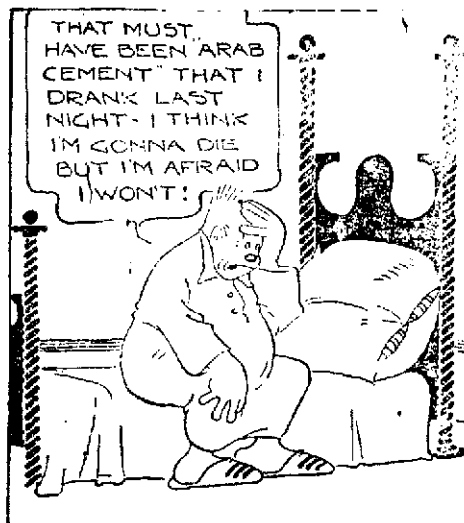

Seven Points of Supremacy

1. The sole leather used in "FOOT-FITTERS" is of the best quality obtainable. Even the insoles are cut from standard outside leather.
2. "FOOT-FITTERS" are the only shoes in the world having full length ramps and sole leather lastings. This feature prevents slipping at the tip and makes a smooth outer and inner surface.
3. The leather is so carefully selected that they fit tightly against the person. When it is worn, it is as good as new. A small piece of duck is used to prevent cracking.
4. The "FOOT-FITTERS" are of great value, for it saves the wear on the soles. The "FOOT-FITTERS" are of great value, for it saves the wear on the soles.
5. "FOOT-FITTERS" are of great value, for it saves the wear on the soles. The "FOOT-FITTERS" are of great value, for it saves the wear on the soles.
6. "FOOT-FITTERS" are of great value, for it saves the wear on the soles. The "FOOT-FITTERS" are of great value, for it saves the wear on the soles.
7. "FOOT-FITTERS" are of great value, for it saves the wear on the soles. The "FOOT-FITTERS" are of great value, for it saves the wear on the soles.

# ROBINSON'S GREAT CLEARANCE SALE

A Sale without reasons or excuses, with this class of merchandise such as we are here offering you; going up in price each day, and you know it as well as we, it will mean dollars in your pocket, as these same goods are and will be much higher next Spring. Bear in mind right here, that these are not a bunch of cheap goods purchased for a cheap sale, such as you see advertised very frequently; everything is our high standard of merchandise, such as the Robinson's Stores have been handling for years.

We have just closed one of the most successful business years in our career and it is customary with us at the end of each season to give our patrons the benefit of the great bargains in Men's, Women's and Children's Ready-to-Wear Apparel. Due to our great purchasing power—made possible by our chain of stores—we are enabled to quote you these wonderful low prices mentioned here.

There are just a few of the many bargains—Space does not permit us to mention everything.

Entered in Post Office at Clearfield, Pa. as second class mail matter

Gifford Pinchot, Speaker Goodnough and President Eyre need to take a look at the map of Pennsylvania. Should they do so they will find a county named Clearfield, which has one perfectly good Senator and two equally good Representative, at least we believe they will prove to be good after a trial, though all are newcomers in the legislative hall.

The appointments to committees in the Senate were given out last night and our Senator, William I. Betts, did not get a place on a single one of the important committees. This may be explained by reason of Mr. Betts being a Democrat, but that is a weak excuse. Clearfield county has a right to representation. The principal committees are Finance, Appropriations, Judiciary General, Judiciary Special, Law and Order, Municipal Affairs and Public Roads and Highways. There are other less important committees and Mr. Betts has no doubt been named on some of them.

Senator Joseph O. Clark, of Indiana county, was handsomely recognized by appointment on the Appropriations, Law and Order and Public Roads committees. Senator Clark is very much interested in the work of these committees and we are gratified to note his recognition.

In the House Clearfield county got it in the neck just as badly. W. Haley Betts of DuBois and Charles B. Jones of Clearfield District are not listed in a single one of the five most important committees: Ways and Means, Law and Order, Judiciary General, Judiciary Special and Appropriations.

Clearfield is going to have its streets plainly marked so that the newcomer, the stranger and the fellow whose business takes him on hasty errands to various parts of the city, can find the object of his search.

We make this assertion because the women of the Women's Club say it is going to happen, and we believe that is good authority, for when the women start out to do something it is done.

The women are to be complimented. It is a considerable task and probably cannot be accomplished without the expenditure of a sum ranging anywhere from five hundred to a thousand dollars.

Council, through its street committee, should have looked after this many years ago and kept the work up as the boundaries of the city expanded. Now, Council should meet the women half way and help to get the signs erected.

Some may think that it is an unnecessary thing to do, but for the average citizen such direction as, "he lives on the upper end of the old Shaw lot," or "over by the old show ground" is meaningless and confusing.

## ELKTON'S OWN INDUSTRY

So many scandals, mostly minor, but all unsavory, have grown out of Elkton marriages in the past year that Governor Ritchie seems likely to join with the Maryland Legislature in enacting a statute to curb the matrimonial industry.

Last year the Governor vetoed a law, which stated a blow at the marriage of elopers, because it applied only to a few of the courtiers. Now he is indignant over some recent occurrences, notably a union of minors, accompanied by parents in youth state of his age. So there is a prospect of a law in Elkton own peculiar industry of marriage between two.

Meanwhile the law passed last year permitting the coupling of cabmen or other tout, by "marrying" them, and thus effecting a more than an impartial distribution of customers by the drivers of vehicles who render first aid to highway.

## PERSONAL SERVICE

The old time idea of a bank as a chilly place for all but the wealthy, is a thing of the past.

The modern bank is a place where the business of the modest depositor is welcomed; where the officers are easily accessible at all times.

The County National is a modern bank. The officers are always glad to meet the people and to give personal attention to their business.

## 'Ford' Skirt Is a Freak

By EDNA HOLT  
(Fashion Editor of The United Press)  
(Written for the United Press)  
Paris, France, (By Mail to United Press) — The key to the mystery of the "Ford" skirt may be found in the fact that it is a freak. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers.

One of the hundreds of Parisian designers who have been busy since the war, he picks up a flock of models which have never been seen before. He shows them to a group of Parisian designers, and they are all amazed. They have never seen anything like it before. They have never seen a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers.

The "Ford" skirt is the latest in the line of "freak" skirts. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers.

Do you know the "Ford" skirt? It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers.

Let me give you an idea of the "Ford" skirt. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers.

The "Ford" skirt is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers.

The "Ford" skirt is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers. It is a skirt that is not a skirt, but a piece of fabric that is cut in a way that it can be worn as a skirt or as a pair of trousers.

## Wise Practice of the Incas

The Incas ancient rulers of Peru were one of the earliest authentic examples of the high eugenic development of the human race. Their system of choosing each year the finest physical specimens of young men, and placing them in all classes to become the sons of the nobles, was a practical application of the principle of eugenics. The Incas were not only wise in their practice, but they were also successful in their results. The Incas were not only wise in their practice, but they were also successful in their results.

## REPORT OF JOHN A. STOCK, DESERTION-PROBATION OFFICER

From January 1, 1922, to January 1, 1923.

The following report is respectfully submitted:

Number of cases in which I was consulted and in which no legal action was taken.

Desertion and non-support cases in which warrants were issued.

Desertion and non-support cases settled without warrant.

New F & B cases.

A & B cases settled.

Guardianship appointments received.

Investigation for Red Cross for county residents.

Total number of cases.

But seven of the twenty-five desertion and non-support cases in which warrants were issued were heard by the Court, the balance of which I settled. Five of the seven cases that reached court were not investigated by me, having had no opportunity to do so; this leaves but two of which I had any knowledge, and of these two, one couple has been reunited since the hearing.

The small number of warrants issued, of which I had knowledge, is due to the counselling in my office and throughout the county. My office work is increased annually by the additional number of new cases, especially F & B cases, the number having increased more in 1922 than any previous year.

Total amount of collections in desertion and non-support cases and for the support of illegitimate children for the year 1922, \$13,796.67, being an increase of \$1572.99 over the year 1921, which shows an increase each year since the first year, 1911, when the total amount of collections was \$719.00.

JOHN A. STOCK,  
Desertion-Probation Officer.

THE STORM will hit here Friday. See same at Driggs Theatre.

# THE HOME of the CHRISTMAS SAVINGS FUND in CLEARFIELD is ALWAYS OPEN to DEPOSITORS

While it is advantageous to get an early start on that Christmas Fund for next Christmas, it is never too late to begin, and we are just as glad to see the late comer as the early one.

Realizing that many people do not have the funds to start depositing so soon after the holidays it has been the policy of this institution to hold the Christmas Fund Accounts open until all our friends can be accommodated.

The experience we gained in developing this form of saving and in handling thousands of dollars in these accounts every year make it possible to serve you to the best advantage.

Again we extend to you a cordial invitation to

JOIN OUR CHRISTMAS SAVINGS CLUB

**Clearfield Trust Co.**

## TO CARE FOR MENTAL CASES

ment is Seeking Young Physicists to Undergo Special Training for Veterans' Bureau Service.

Dr. Frank F. Hutchins.

The government is looking for 50 young doctors of medicine to compose an initial class for special training in the treatment of mental cases, Doctor Hutchins said.

"Neuropsychiatry is perhaps the most difficult of all the veterans' ailments," he said. "Almost anyone knows that tuberculosis is caused by a definite germ. Almost everyone knows what kind of treatment and care should be given a tubercular patient. This is not disease, however, may be the combination of many other physical ailments. Hardly two of them are exactly alike. It is a difficult problem, and doctors handling these cases need special training. They must have all the patience in the world."

Doc Hutchins said it is impossible to obtain the required number of specialists in nervous and mental diseases, and that it has become necessary for the government to instruct a staff of its own for this line of work.

"The policy of the bureau is to provide medical attention for the disabled veterans so that everything possible may be done to restore them to health and proper status in civilian life," he said.

A systematic and comprehensive course in neuropsychiatry has been outlined. It consists of 176 lectures and demonstrations and some 441 hours of clinical and laboratory work. Three courses are to be given. The first, which will last four months, in the academic. The next is a post-graduate course of six weeks and the third, consists of one or two conferences a year lasting three or four days, where ideas and experiences are exchanged.

The accepted candidates will receive \$100 a month during the school work, and after graduation will be passed assistant surgeons in the reserve corps of the United States public health service, or eligible for employment at class "B" physicians under the United States civil service commission and assigned to duty with United States Veterans' bureau. These salaries range from \$3,000 a year upward.

The first class started work January 4, and at the same time schools for graduate nurses, social service, occupational-therapist and physio-therapist work began.

## BONDY GETS RED CROSS CALL

Member of Peers-Williams Post of St. Louis is Appointed Director of War Service.

Robert E. Bondy, a member of Peers-Williams post of the American Legion at St. Louis, has recently been appointed to the important office of director of war service of the American Red Cross.

Mr. Bondy has had a wide range of experience with the Red Cross since April, 1919, when he came to the organization from the naval service bureau of the chamber of commerce of Columbus, O., where he organized one of the largest war chests of the early war days, adding \$125,000 in that city in one drive.

He served as secretary treasurer of the public welfare section of the Ohio conference of public welfare in 1917 and during the war was an enlisted man.

Mr. Bondy is a native of Minnesota, and received his education at Chicago university. For a time he was a reporter on the Chicago Tribune. His many duties have thrown him in contact with the work for ex-service men. This, combined with his camp experience and his training as a social service executive, peculiarly fits him for his new duties.

Representing the Red Cross, Mr. Bondy spoke at the recent national gathering of Legion state adjutants held in Indianapolis.

## Chance to Profit.

Rafferty of the Old Sod, and MacPherson, a Scot, were miners together one day Rafferty accidentally emptied his pipe on a keg of powder and when he came down it was on the instant in flames. Mac's grief was genuine, but finally he dried his tears and went off to notify Mrs. Rafferty.

"Is his the Widow Rafferty?" he asked when a woman appeared at the door.

"The Mrs. Rafferty I am, but no Widow Rafferty," she snapped.

A businesslike gleam came into MacPherson's eye.

"An' how much will ye bet?" he demanded.—American Legion Weekly.

## SEAT SALE FOR MISS BOB WHITE IS A WHOPPER

It is rather unusual to have two performances of a home talent practically sold out before the curtain rises, but such is the case for "Bob White" given by the Clearfield High School and directed and staged by Miss Ruth Blakemore of John B. Rogers Proucing Co. This play has created enthusiasm that has never been known heretofore and the cast has been solicited continually for tickets.

The curtain for the first performance will rise at 8 o'clock.

The last rehearsal was held last night and every thing went smoothly and smoothly. The cast went easy and assumes an air of professionalism, rather than nervousness, noticeable in most productions.

Seats can still be obtained at the High School, but it looks as though the S. R. O. sign is not far off and it would advise getting down the seats before it is late. Ad.

## Backache or Kidneys?

The danger signals are backache, depression, pains, heaviness, drowsiness, irritability, headache, chilliness, rheumatic twinges, swollen joints or gout.

Meadville, Pa.—"I take great pleasure in recommending Dr. Pierce's Anuric Tablets to all persons suffering with inflammation of the bladder. I found greater relief from a few doses of Anuric than from any other medicine I ever took, and it completely cured me of this distressing and painful ailment."—Mrs. J. H. Hear, 249 1/2 Chestnut St.

Since it is such a simple matter to step into your favorite drug store and obtain Dr. Pierce's Anuric (anti-uric acid) tablets, anyone who earnestly desires to regain health and live life without waste no time in beginning this treatment.

Write Dr. Pierce, Pres. Invalids' Hotel in Buffalo, N. Y., for free medical advice.

## Tom Sims SAYS--

New England man let millions in will of 50 words so he may have done it by being a man of few words. Being frank is fine; but in Alabama a man was arrested for being frank in one town and Henry in another.

Dodgson an auto fix is about as much as dodging a man.

On looking about the chequer board of the Florida coast old folks will ask "Scholar of what?"

The report of a tailor shortage will cause very little worry. Most of us bought our suit years ago.

An Ottawa (Ill.) man who smoked in bed has quit smoking unless he went where friends say he didn't go.

The only thing wrong with a country is the people.

In St. Louis a man walked into the jail and asked to be shot. Probably some fellow who believed that his wife said about him.

Two Wichita (Kas.) boys robbed a bank. There should be a law against minors robbing banks.

People would be better off reading about golden weddings was an interesting as reading about divorce.

## HOW NEWSPAPERS HELP

The newspaper starts in When you are born; Pelates about your excellence And tells about your sweetness. It follows you to school, And points the honor roll. If your name is found there, It tells of your graduation And speaks of the excellence Of your magnificent essay; It tells of your progress During your college career And then dilates much about The choice of your location. Then it gives a nice notice About your marriage.

And praise up the blushing bride Till her finstall don't know her. Then in the out of events, It tells about the bountiful baby That happens in your family— Then, oh beginning its life work All over and over again.

The newspaper does all this And it also does much more. It tells of the progress Made by city and county And boasts all enterprises; Gives free advertising Worth thousands of dollars; Tells of its own home town.

There are a lot of things That all good newspapers do For which they cannot be paid. That is why every citizen Should do his darndest To support the newspaper In every possible way And all the time.

Yasum.

I then, you.—Palatka, Fla., News.

The small boy's kick against the unfairness of things in general is no teacher never gets sick.

Ford says he didn't try to get rich until he was 40, which was a streak of luck for Rockefeller.

A new broom may sweep clean but it always wears out.

Isn't it great that this country is not run on the European plan?

(Continued From Page One.)

be standardized and all specifications and orders should state the style of composition required in terms of these standards.

"Standard sizes consistent with the recommendations of the committee on simplifications on paper sizes should be determined upon for all forms and books and all specifications and orders should be limited to these standards.

"A limited number of grades of paper having different folding and tearing strength and longevity,

which in their range will meet the requirements of the state printing and binding, should be determined upon.

"Manufacturers and jobbers of paper should be invited to submit samples of their standard brands of paper for classification according to these grades. No writing paper should be accepted unless watermarked with a well established watermark of a reliable jobber or mill.

"These samples should be analyzed and a revised list of brands which may be used for each of the standard grades, issued from time to time.

"All specifications and orders should state the grade of paper required in terms of the established

standard grades and the printer or binder should be permitted to use the brand of paper which has been previously classified by the state as coming within the required grade.

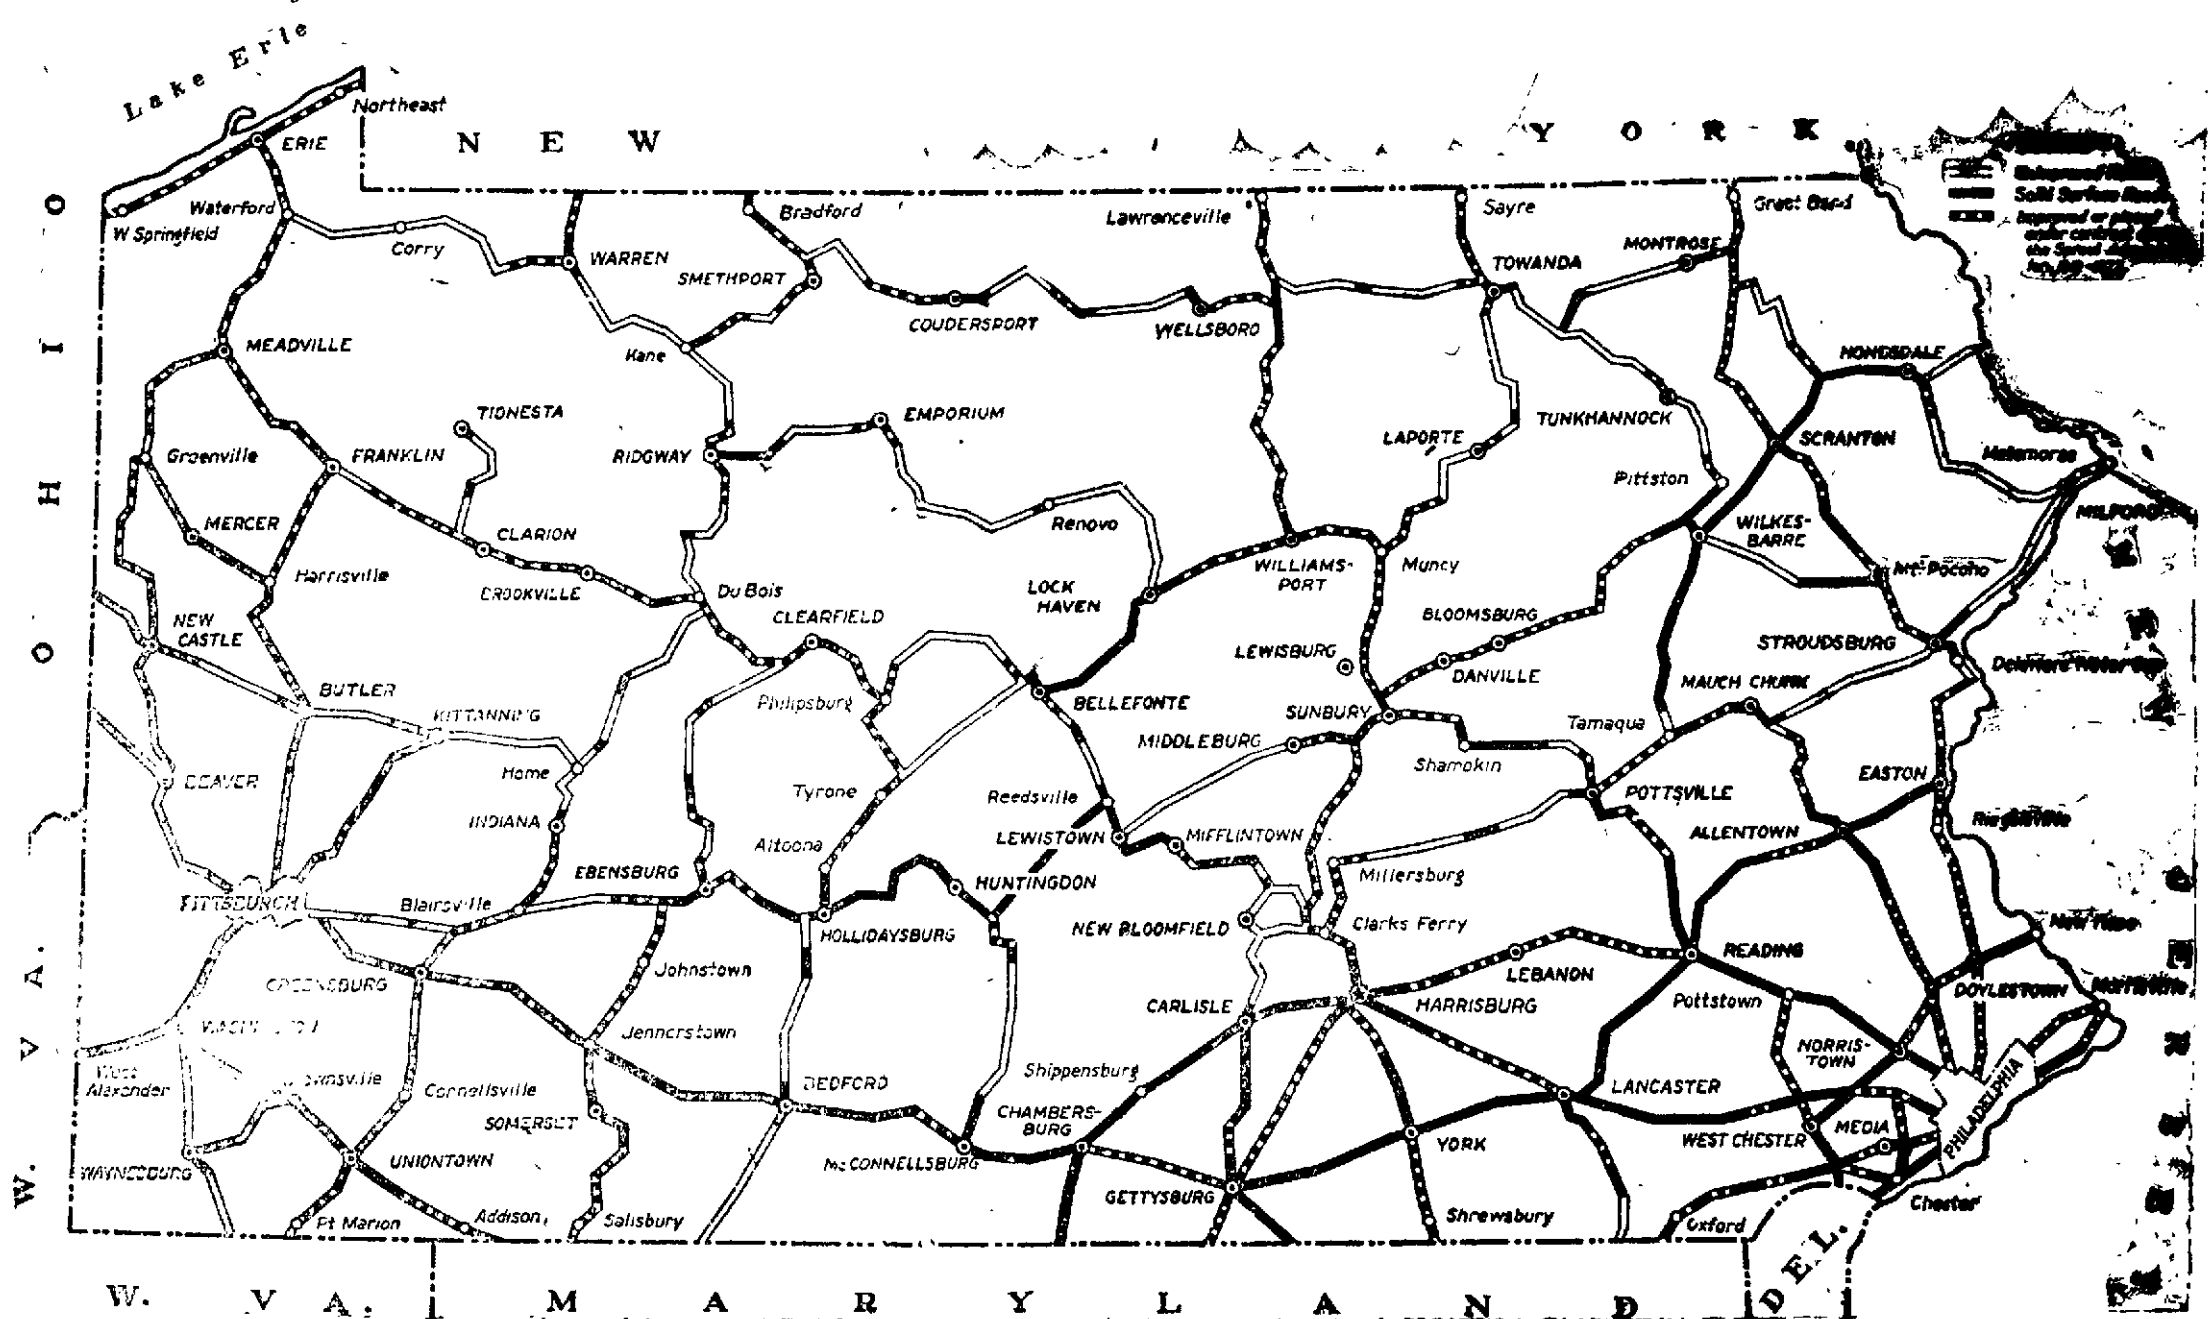

"That a bureau of standards for paper, printing and binding be created to set up the foregoing standards.

"That the period of the contract for legislative and other work necessary to be done in the vicinity of Harrisburg be made optional with the bidder.

Economy hint: Read Progress Ads.

THE STORM will hit here Friday. See same at Driggs Theatre.

## PENNSYLVANIA'S PRIMARY ROAD SYSTEM ALMOST ENTIRELY IMPROVED

The map shows Pennsylvania's primary highway system, composed of these roads of importance to the state at large. There are shown the solid-surface highways, the unimproved roads, and the roads improved or put under contract for improvement during the Spread administration. According to the State Highway Department this map is an accurate guide to drivers of trucks and passenger cars.

## PENNSYLVANIA ROAD SYSTEM

Harrisburg, Jan. 6.—During 1919, 1920, and 1922 the State Highway Department of Pennsylvania constructed approximately 1,815 miles of durable highway; and there remain under contract, but not completed, approximately 185 miles of similar roadway.

The Department has prepared a map showing the primary highway system, or those roads of importance to the state at large; and this map visualizes the improvement to Pennsylvania's highways accomplished since the Department first began the construction of all weather highways. It is now possible to drive approximately 700 miles on a straight-away in Pennsylvania.

The Highway Department's map is an excellent guide to Pennsylvania road users. Of the several thousand miles of Pennsylvania roads shown on the

map, only 185 miles remain to be completed; and of this 185 miles all but about 25 miles will be in use before Aug. 1, 1923.

Distances have been slashed by Pennsylvania road improvements. In traveling from Harrisburg to Erie, for instance, it was formerly necessary if the weather were wet or threatening to go via Pittsburgh, Beaver Falls, Youngstown, O., and Conneaut, O., in order to secure a maximum of all weather road surface. But now the direct road is via Lewisport, Huntingdon, Tyrone, Clearfield, Brookville, Clarion, Franklin and Meadville; and the journey which once consumed not less than twenty hours can now be covered in twelve hours.

The New York and Ohio good road systems have been connected through the improvement of the Philadelphia, and thence southward through the Red Bank, Delaware and the Chesapeake Bay, and the

Square to the Maryland line, the entire highway is improved and the section between Scranton and the New York line is one of the best in the United States.

Traffic from Scranton and Wilkes-Barre to Harrisburg within a year will use an entirely improved surface. On this route there remain to be completed two short sections near Bloomsburg and the seven mile section between Selinsgrove and Liverpool, referred to above.

Traffic from Scranton and Wilkes-Barre to Reading has a road entirely improved except for a short section between McAdoo and Tamaqua.

Beginning at a point south of Salisbury, Somerset County, there is an improved highway connecting the National Pike, the Lincoln Highway, and the William Penn Highway via Meyersdale, Somerset, Jennestown and Johnstown.

From Greenburg to New Alexandria, from which point travelers find an improved road to Indiana.

When Governor William C. Sproul assumed office in 1919, he said Pennsylvania's good roads were an asset and its bad roads a liability. The State Highway Department during the last four years has succeeded greatly in reducing Pennsylvania's liabilities.

Referring to what the Highway Department has done during the last four years, Assistant Highway Commissioner George H. Biles said today:

"In connection with the accomplishments of the Pennsylvania Highway Department since Jan. 1 1919, I have only one regret—that Lewis S. Sadler did not live to see the completion of this splendid road mileage, in which, as State Highway Commissioner, he took so intense an interest."

## TOWNSHIP SUPERVISORS MEET

The county convention of the Township Supervisors of Clearfield county was held at the Court House today and matters concerning the building and matter of the roads of the county were discussed and plans made for further improvement during the coming year.

Mrs. Geo. E. Zerfoss, who spent the past month with relatives in Mechanicsburg, where she was called owing to the death of her mother, has returned home.

ODDS AND ENDS  
AND THINGS

By J. D. C.

The Rev. Percy Stinker Grant, one of New York City's sensational story pilots, who is now under a cloud by reason of his infatuation and marriage to a divorcee, is now against the established order as to churches, marriage and about everything else he favored before being disciplined by his church authorities.

Uncle Sam's military strength for the fiscal year 1924 will be far greater than at any other time of peace in the country's history, the House Appropriations Committee showed today in submitting a report of the Army Supply Bill for that year.

The actual standing army will have 125,000 men and 12,000 officers, but the total of those constantly under arms and in up-to-date training condition will be about 625,000. Provision is made by the Appropriations

## AN ORDINANCE

Assessing upon the properties adjoining or adjacent to the same the cost of constructing the sanitary sewer on that part of the alley lying immediately South of Nichols Street extending from West Front Street to Weaver Street, as well as the cost of constructing the two lateral or branch sanitary sewers, one extending from said main sewer in a Southerly direction along William Street to the alley lying immediately North of Clearfield Street, and the other extending from said main sewer in a Southerly direction along Weaver Street to the alley lying immediately North of Clearfield Street, in the Third Ward of the Borough of Clearfield, Pennsylvania.

Be it ordained by the Council of the Borough of Clearfield in council regularly assembled, and it is hereby ordained and enacted by authority of the same:

Section 1. That the cost of constructing the sanitary sewer on that part of the alley lying immediately South of Nichols Street, extending from West Front Street to Weaver Street, as well as the cost of constructing the two lateral or branch sanitary sewers, one extending from said main sewer in a Southerly direction along William Street to the alley lying immediately North of Clearfield Street, and the other extending from said main sewer in a Southerly direction along Weaver Street to the alley lying immediately North of Clearfield Street, in the Third Ward of the Borough of Clearfield be and is hereby assessed as a sewerage tax upon the properties adjoining or adjacent to the line of said improvement as follows:

|                                |                   |
|--------------------------------|-------------------|
| Labor                          | \$810.15          |
| Cost of pipe and hauling same  | 296.27            |
| Cost of brick and hauling same | 71.90             |
| Sand, cement and oil           | 27.00             |
| Man hole lids and steps        | 36.00             |
| Blacksmithing                  | 6.95              |
| Engineering                    | 15.55             |
| Advertising ordinances         | 20.00             |
| <b>Total</b>                   | <b>\$1,371.93</b> |

The total frontage of properties abutting on the line of said sewer and the two lateral branch sewers is 2255 feet, and the cost per lineal foot assessed against the properties adjoining or adjacent to the same is \$605.7.

The names of the property owners, the number of feet of their respective properties adjoining or adjacent to said alley and street, where said sewer and the two lateral branches thereof have been assessed are as follows:

|                                                                                                                              |          |
|------------------------------------------------------------------------------------------------------------------------------|----------|
| Mary E. Souders, 220 ft.                                                                                                     | \$133.25 |
| Israel Novy, 60 feet                                                                                                         | 36.31    |
| Lucinda E. Schueker, 146 ft.                                                                                                 | 88.43    |
| Lloyd H. Davis, 200 ft.                                                                                                      | 121.14   |

Section 2. The Secretary of Council is hereby directed to immediately serve notice upon the property owners above named that said assessments are due and payable and that liens will be filed if payments are not made within thirty days.

Ordained and enacted this fifteenth day of January, A. D. 1923.

GEORGE M. ROSSER,  
President of Council.

Attest:  
J. D. CONNELLY,  
Secretary of Council.

Examined and approved this fifteenth day of January, A. D. 1923.  
FRANK KITTELBEGER,  
Burgess.

Send in Your Red Envelope

Committee, however, for nearly double that number by requiring that enough supplies shall be constantly on hand for 1,000,000 men. This is explained by Chairman Madden (Rep., Ill.) who said:

"To prevent the reduction of the reserves below the quantity required in emergency a provision is recommended in the bill that no issues shall be made which would impair the reserves held by the War Department for two field armies, or 1,000,000 men."

The committee recommends total appropriations of \$314,004,234, of which \$248,797,051 is for military activities and \$65,267,243 for non-military. The latter includes \$37,000,000 for rivers and harbors and \$17,000,000 for completion of Wilson Dam at Muscle Shoals. For 1923 the total appropriations were \$330,074,738.87.

Total men in the army or in training is:

Enlisted strength of the Regular Army, 125,000; officers, 12,000; Philippine Scouts, 7,000; reserve officers, 101,000; National Guard 215,000; young men in schools and colleges, 110,000; civilians trained the current year in camps, 22,000; civilians to be trained in the next fiscal year, 30,000.

"Never before has the country possessed so many military resources in trained men and material," Mr. Madden said. "Our Regular Army now has double the number of highly trained commissioned officers it had before the World War, and an enlisted strength 25 per cent. larger than before the war. The National Guard is nearly 100 per cent. larger and a far greater military asset to the nation than ever before."

Gen. Harbord, former Deputy Chief of Staff, said conscriptive selection should be continued as a policy in filling out the skeleton of a great armed force for emergencies.

Dr. Asa R. Davis, of one of the big New York hospitals, banks his professional reputation on the statement that bowlegs are going out. He doesn't charge it to the fact that long skirts have already come. Dr. Davis is chief surgeon at the Lying-in hospital in New York and every week he and his assistants examine one thousand new babies. He finds the (1) type of legs a fast going way to the (2) type. Also the X and Y types are giving way to the straighter form.

"The reason," says the doctor, "is not that parents no longer teach babies to walk too soon, but that mothers of today have been taught to exercise greater care in preparing infant diet. Bowleggedness is really caused by malnutrition, a simple deficiency in bone-making calcium. Vitamins, in good milk, fruit juices, grains and vegetables, are rapidly eliminating rickets in centres where health information is made easily available. Mothers are learning to straighten legs depend on proper diet."

A Pennsylvania couple named Coffey and Shugars were married down at Millintown Monday. That ought to prove to be the right combination.

Our old friend Benjamin Franklin, the 217th anniversary of whose birth we celebrate today, in addition to his many other accomplishments, was one of America's first great athletes. He was a proficient long distance swimmer even at the age of sixty and also excelled in wrestling. He wrote some books on the art of swimming, and while in England swam races frequently in the River Thames.

Ben was a kite flyer long before he used that "machine" for pulling electricity out of the sky, as the following from his pen will show. In a little book on swimming Ben says:

"When I was a boy I amused myself one day with flying a paper kite, and approaching the bank of a pond, which was near a mile broad, I tied the string to a stake, and the kite ascended to a very considerable height above the pond, while I was swimming. In a little time, being desirous of amusing myself with my kite, and enjoying at the same time the pleasure of swimming, I returned and loosing from the stake the string with a little stick which was fastened to it, went again into the water, where I found that, lying on my back and holding the stick in my hands I was drawn along the surface of the water in a very agreeable manner."

"Having then engaged a boy to carry my clothes round the pond to a place which I pointed out to him on the other side I began to cross the pond with my kite, which carried me quite over without the least fatigue and with the greatest pleasure imaginable. I was only obliged occasionally to halt a little in my course and resist its progress when it appeared that by following too quick I lowered the kite too much; by doing which occasionally I made it rise again."

"I have never since that time practised this singular mode of swimming, though I think it not impossible to cross in this manner from Dover to Calais. The racket boat, however, is still preferable."

THE STORM will hit here Friday.

Ouch! My Back! Rub  
Lumbago Pain Away

Rub Backache away with small trial bottle of old "St. Jacobs Oil."

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints!

WOULD YOU PUT A LAME HORSE IN  
THE STABLE AND FORGET IT?

Not likely. Well, a truck costs more than a horse. If you have one "on the shelf" call us up and let us put it in our hospital.

## NEWS OF OUR NEIGHBORS

### CURWENSVILLE

House to house evening prayer settings are being held in town this week by the members of the M. E. congregation. This is done each year prior to the holding of revival services.

Earl McFadden, Grampian road, has been seriously ill for several weeks with colic and is not gaining any rapidly and is unable to partake of any solid food.

James Leonard, of LeConte Mills, was in this neighborhood the latter part of last week testing scales at higher and pyramid mines. He holds the position of scaler of weights and measures.

Frank Norris, second son of Samuel G. Norris, has gone to Altoona to work in the Pennsy railroad there.

Mrs. E. M. Kelly, Andover, has been confined to her bed for two weeks past. She is not recovering as rapidly as her friends would desire.

John Willis has removed from Grampian road to a new home at which point he is now acting as superintendent of the Crescent Refractories brick plant. His former home, he has resigned.

Rev. J. C. Collins informed us yesterday that he had arranged to start annual revival meetings in the Methodist church Sunday evening.

Mrs. Robert Welsh, of Lock Haven, who came to Clearfield a few days ago to consult a physician, was a guest of Mrs. M. F. Crowder last night and today.

Howard Thompson and wife went to Harrisburg Monday to attend the inaugural ceremonies of Governor Pinchot. He had some other business in mind at the same time, killing two birds with one stone.

Roy Dougherty, who has filled the position of general superintendent of Crescent Refractories brick plant, has resigned, and will go to Texas within a week or two to take up bridge construction work.

Mrs. I. Kantar went to Clearfield yesterday to attend a showed given in honor of Miss Harris.

Harry Shick, one of the reliableuffers at the tannery, is confined to his home on Susquehanna avenue by illness.

Johnston Hamilton, a well known resident of Luthersburg, died Saturday after a short illness, about 79 years. Deceased was well known to many Clearfield and Clearfield people.

### BIGLER

Mrs. Tillie Shoemaker of New Liberty is visiting her sister, Mrs. H. R. Williams.

Howard Stevens spent Sunday with relatives in Osceola Mills.

Mrs. G. B. Thompson and daughter Betty were shopping in Clearfield Tuesday.

Frank Rinehart is slowly improving after a severe attack of scarlet fever.

Mr. and Mrs. Hamer Tate spent Sunday with relatives in Philipsburg.

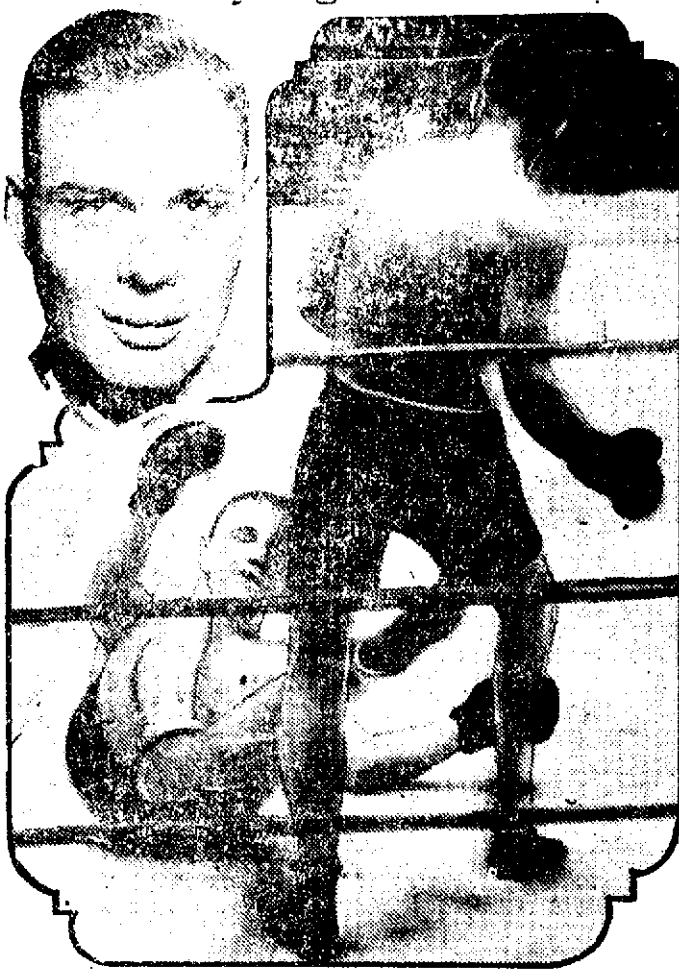

Mrs. Irvin Wisor has returned to her home after being a patient at the Clearfield hospital for the last three weeks.

Mr. and Mrs. Elmer Rawles gave their little daughter Jean a surprise party on Saturday afternoon, it being her sixth birthday when 12 of her little playmates gathered in to enjoy the occasion. There were

### REAL BUCKWHEAT FLOUR

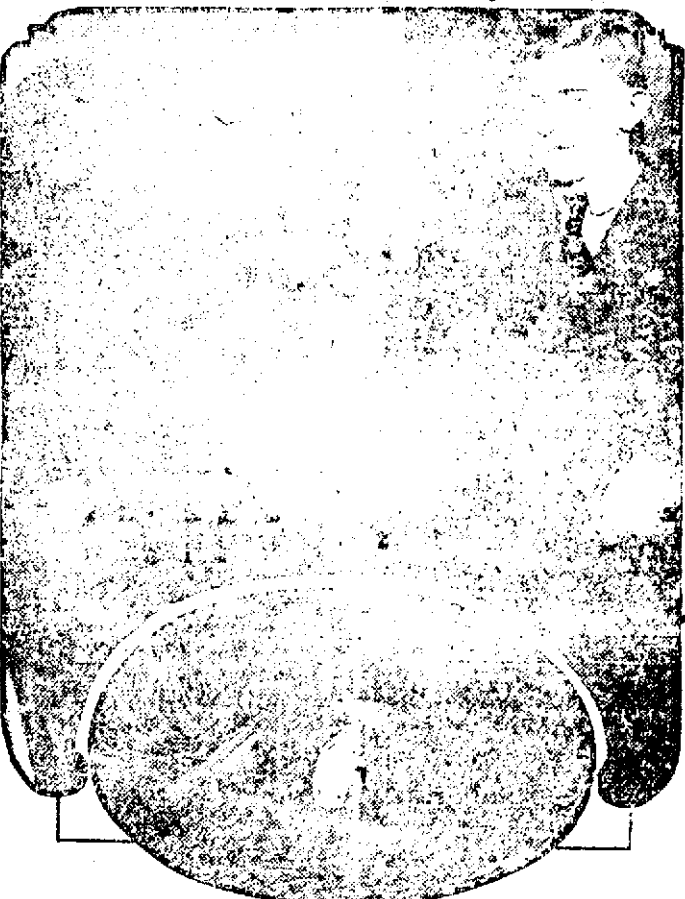

Fresh ground Buckwheat Flour, Sharville Brand, Ground in the good old-fashioned way. Delivered anywhere. Also baked timothy and clover hay. All orders promptly attended to. Call A. B. Lansberry, Woodland R. D. or Bell phone 904-31, for prices, etc.

## Iowa Heavyweight Beats Brennan

Floyd Johnson (inset) advanced another step toward his opportunity to face Jack Dempsey for the heavyweight title, when he defeated Bill Brennan, veteran washhorse, in a 15-round bout in Madison Square Garden, New York. Picture shows Brennan slipping to the floor in the fifth round.

## Pig's Eye to Restore Boy's Sight

The sight of blind Alfred Loman, of Lyndhurst, N. J., is expected to be restored by grafting into his socket a pig's eye. The pig shown above, Dr. Edward Morgan of Paterson, N. J., who has already successfully performed a similar operation, will transplant the eye.

games of all kinds and music. After lunch the little ones were seated around the table to enjoy the refreshments. Everyone started for home with a happy and happy birthday.

### NEW PAIGE MODEL IS REMARKABLE FOR SILENCE

That the makers of the Paige have made good their claim to produce a silent motor car is indicated by the quiet test and demonstration of the new Paige 6-70 model.

"Three of the important improvements in the new model have a new degree of silence as their aim," says Mr. H. M. Jewett, president of the Paige Company. "The new type of chain drive in the front of the motor gives motor silence with satisfaction."

### THROW OUT THE LINE

Give Them Help and Many Clearfield People Will Be Happier.

"Throw Out the Line!" Weak kidneys need help. They're often overlooked—they don't get the proper filtered out of the blood.

Will you help them? Don't let kidney pills have brought to light the kidneys of kidney sufferers.

Charitable testimony leave their words. Ask your neighbor! Philip Brown, R. D. No. 2, Clearfield, says: "I had an attack of kidney trouble. There was a continual dull ache in my back that bothered me and I was tired out all the time. I used Doan's Kidney Pills and they did me a lot of good, removing the poisons from my blood and I feel fine now."

Price 60¢ at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lucas had. Foster-McBarn Co., Mfrs., Rochester, N. Y.

## THE OLD HOME TOWN — By Stanley

## This Is The Night The High School Players Will Show Their Talent

The presentation of "Bob White" tonight and tomorrow night at the High School Auditorium under the auspices of Clearfield High School will represent an evening of solid comedy and pleasing, catchy musical hits.

The cast is familiar with all parts of the production and it is going to be a surprise for the people of Clearfield to witness a play that is really professional and put over in a professional way by amateurs.

Miss Blakemore, the director for John B. Rogers Producing Co., is very well pleased and predicts that the production will be an excellent one from an artistic standpoint because of the talent that has been selected really fitted for the parts they are to take.

Seats can be obtained at the High School and from the heavy advance sale both for tonight and Thursday, it looks as tho the theatre will be taxed each performance to its capacity. Reservations should be made immediately, as there are but really few choice seats to be obtained. Admission—free.

"Squeaks are caused by the liberal use of anti-squeak. At no point in the body of the new Paige does metal touch metal or metal touch wood. For instance between fender and body is found a double fold of patent leather that eliminates all possibility of squeak or rattle. It also insures a neat and water-tight fit. This type of construction, now featured in the new Paige, has heretofore been found only in the most expensive custom-build automobiles.

"These three important improvements are typical of many detailed betterments that we believe will give to the new Paige unusual smoothness and silence among fast automobiles."

### For Cold on the Chest

Musterole is easy to apply and it does not blister like the old-fashioned mustard plaster.

Musterole is a clean, white ointment, made with oil of mustard. Simply massage it in gently with the finger tips. You will be delighted to see how quickly it brings relief.

Get Musterole at your drug store, 35¢ a 60¢ jar & tube; hospital size, \$3. BETTER THAN A MUSTARD PLASTER

### Gossip For Tonight's Tea Table

Mr. and Mrs. W. I. Betts are spending a few days in Harrisburg. Mary Catherine Whitehill is ill at her home on Nichols street with diphtheria.

Mrs. Webb Shillingford is spending some time in Atlantic City with M. Oliver Babcock of Chicago.

Mrs. Elizabeth Ibersen and little daughter of Philipsburg are spending a week with Mrs. Ibersen's sister Mrs. C. H. Oberdick on Ogden avenue.

Bobbi Davis of Ogden avenue is a surgical patient at the Clearfield hospital.

M. S. Bowie returned last evening from an extended trip to Pittsburg, Akron and Buffalo.

L. C. Mattum transacted business in Philipsburg and Osceola yesterday.

Miss Doll Woy of Johnstown is visiting Mrs. D. W. Speck at her home on Market street.

John Howe and daughter Margaret of Morrisdale attended the funeral of James Beauregard.

Dr. and Mrs. G. E. Mack of Woodland spent Tuesday evening with friends.

Blaine Iames is spending a week with his brother, Howard Iames of Pittsburg.

Mrs. Eleanor Miller is confined to her home on Front street with a severe cold.

Miss E. May Witherow has returned from spending several days in Warren.

J. Lynn McPherson is able to return to his work after being confined to his home with gripper.

Webb Shillingford has returned from a business trip in the East.

Mrs. D. W. Speck has returned from a visit with Mrs. Howard Piggett of Philadelphia.

Mrs. William Brown of Barrett spent last evening with her parents, Mr. and Mrs. W. E. Davis on Eleventh street.

Mr. and Mrs. W. C. Watson have returned from Williamsport where they attended the funeral of Mrs. Watson's father, Mr. Lewis.

Mrs. Reginald Stevens of Woodland spent Tuesday evening with her parents, Mr. and Mrs. Davis on 11th street.

There will be special communion services at the Lutheran church after the "Quiet Hour" services.

Miss Helen Philips is able to be out again after a week's illness with the gripper.

What We Are.

For when we look it in the face, it is an awful thought that we cannot prevent our real character from doing its work among men, and what we are, not what we seem, is that which is really influencing others.—Stonford Brooke

### A GIRL, TWO MEN, LONELY CABIN, TROUBLE

The awesome stillness of frozen wastes, snowbanked—  
The whispering quiet of giant, snow-weighted sentinel trees—  
A primitive man—

A sick or women and tired of love—

An innocent girl thrown upon them by chance—

And a cabin in the midst of the loneliness.

Put these all together, they spell "trouble." And so they do in the Universal-Jewel production, "The Storm," starring House Peters at the

Driggs theater next Friday and Saturday.

It is a picture of top notch calibre, with Matt Moore, Virginia Valli, Joseph Swickard, Gordon McFee, and Frank Lanning in support of Peters directed by Reginald Barker, the producer of "The Old Nest."

Langdon McCornack wrote the play from which the picture was adapted and which made New York stage history. "The Storm" was the sensation of a season and its dramatic possibilities were readily recognized by the

versal.

was demented, the doctor said, due to his spine wound and as the family he was boarding with claimed to be afraid of him and wanted him taken away from their home, it was our duty to provide for him.

I talked to Dr. Wilson about taking him to the Clearfield hospital, but he said they had no padded cell at the hospital and the man, LaPaine by name, had better be taken to the County Home for the present.

It then being too late to get in touch with the County Commissioners I went into their office the next morning and arranged with Commissioners Dale and Farrell to have the comrade placed in the home. When we went down to the Benedict home for him we found his uncle or brother had come on from Patton and taken him to their home.

If any one else wants to know anything more about this man's welfare send him around; we take care of our own members or comrades in distress.

Yours respectfully,  
A. D. NELSON,

### SOAKS RIGHT IN AND LIMEERS UP STIFF JOINTS

Pharmacists call it 'Joint Ease' because it's for Swollen, Sore, Painful, Creaky Joints Only

It took a good many years to get together a combination of pain subduing and swelling reducing agents declared to be the one remedy that almost instantly penetrates through skin and flesh and starts right in to make swollen, inflamed, creaky, painful joints as good as new.

They call this new and wonderful preparation "Joint Ease" because the medical man who turned the trick, worked for years to perfect some low-priced remedy that would really benefit the millions of people who have one or more joints that need

THE CLEARFIELD PROGRESS, CLEARFIELD, PA. WEDNESDAY EVENING, JANUARY 17, 1923.

NUMBER 14

## RUHR OPERATORS AND MINERS DEFY FRENCH GOVERNMENT'S DEMAND FOR COAL SUPPLY

Thysson and Three of  
Biggest Operators Are  
Notified of Arrest On  
Refusal to Operate.

### SITUATION TENSE

Berlin, Jan. 17.—German Gov-  
ernment mine directors and  
miners meeting at Dusseldorf to-  
day unanimously resolved not to  
obey French orders about coal  
deliveries.

Paris, Jan. 17.—The Germans de-  
fied the Reparations Commission to-  
day, refusing to appear when sum-  
moned in regard to deliveries of ben-  
zol to the Allies. The Commission  
thereupon adjourned.

London, Jan. 17.—August Thyssen  
and three other German coal barons  
were arrested by the French today for  
persisting in refusal to obey Gen-  
eral Simons' orders regarding coal  
deliveries according to reports here.  
The Germans were not taken into  
custody but were told to consider  
themselves under arrest.

Essen, Jan. 17.—German mine  
operators in the Ruhr defied French  
threats of arrest and confiscation  
and refused today to deliver coal as  
demanded.

The French as a further punitive  
step ordered the Army of Occupation  
to seize more Ruhr lands. Troops  
advanced toward Muenster, which  
is outside the zone originally desig-  
nated for occupation and their march  
toward Hagen was expected before  
the day is over.

General DeGoutte had summoned  
the operators and threatened them  
with court martial and arrest if de-  
liveries did not commence this morn-  
ing.

The French General met defiance  
from every side. August Thyssen  
ignored him and Hugo Stinnes moved  
his company headquarters from  
Mulheim to Hamburg.

If the French make good their run  
on the mines the Germans declare a  
general strike in the Ruhr will fol-  
low.

Berlin, Jan. 17.—Hugo Stinnes,  
Germany's greatest industrial leader  
for years one of the bloodiest bat-  
tles of history if the French seize  
and work the mines at the point of  
the bayonet.

Showing the hard headedness of  
the sturdy Westphalians, he be-  
lieved there is a possibility of a ghast-  
lier time than when the Cicilians  
drove out the French in the 13th  
century mid scenes of murder and  
arson—an historical event that has  
come to be known as Cicilian ves-  
pers.

The Westphalian is a German  
through and through. His father and  
his grandfather before him worked in  
the mines and he takes pride in that.

According to Stinnes' view, they  
will not brook being driven to the  
pit of the mines at the point of a  
bayonet and sound by "French har-  
nesses."

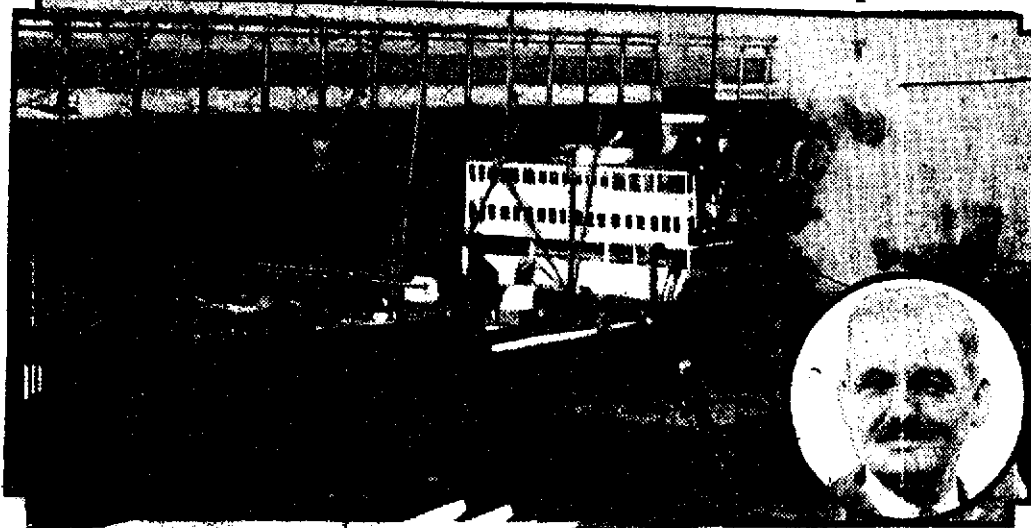

Stinnes drew a picture of these  
men in the bowels of the earth troop-  
ing from the mines some morning to  
attack the French in one of the blood-  
iest battles in the mine fields ever  
known.

## FIVE CHILDREN ARE SUFFOCATED WHEN THEY LOCK THEMSELVES IN CLOSET TO ESCAPE FLAMES WHICH BURNED HOME

Binghampton, N. Y., Jan. 17.—  
Huddled together in a clothes press  
where they had gone seeking refuge  
from the five children of Mr. and  
Mrs. Joseph Kopatz were found  
dead of suffocation today.

Firemen, who penetrated the  
flames think it cut off the children  
after their parents, cut and bleed-  
ing had been found outside, were  
forced to break open the press.

## Army Transport Sails for Rhine Troops

The army transport St. Michel commanded by Captain Woodbury Oliver (inset) is shown here steaming up at her dock in Brooklyn, N. Y., at the beginning of her voyage to bring back the American troops on the Rhine.

## Powerful Forces At Grips Over Policy

### Capitalists Want To Raise Bars; Labor Desires Further Restriction

By WILLIAM J. LOSEH  
(United Press Staff Correspondent)

Washington, Jan. 17 (United  
Press).—Powerful forces have come  
to grips here to determine who shall  
dictate the writing of the nation's  
immigration policy, now under con-  
sideration by Congress.

Two years ago, when post-war  
mass migration of Europe's destitute  
populations to this country seemed  
imminent, Congress threw out a bul-  
wark in the form of the present  
"three per cent" law, limiting im-  
migration from any country to 3 per  
cent annually of the total number of  
nationals of that country in the  
United States in 1910.

Behind this, Congress announced  
it would draft a carefully drawn,  
close woven permanent policy, taking  
into consideration all the manifold  
questions connected with immigra-  
tion.

London, Jan. 17.—The German  
mark was eighty three thousand  
to the pound sterling at the  
London exchange today.

## TWO ESCAPE FROM HOLLIDAYSBURG JAIL THRU WINDOW

Altoona, Pa., Jan. 17.—Sam An-  
drias who was sentenced to the West-  
ern Penitentiary on a dynamiting  
charge and John Roache, a cell mate  
escaped from the Blair county jail  
early this morning by crawling  
through a narrow window and drop-  
ping to the ground.

## FIVE CHILDREN ARE SUFFOCATED WHEN THEY LOCK THEMSELVES IN CLOSET TO ESCAPE FLAMES WHICH BURNED HOME

Binghampton, N. Y., Jan. 17.—  
Huddled together in a clothes press  
where they had gone seeking refuge  
from the five children of Mr. and  
Mrs. Joseph Kopatz were found  
dead of suffocation today.

Firemen, who penetrated the  
flames think it cut off the children  
after their parents, cut and bleed-  
ing had been found outside, were  
forced to break open the press.

With the passage of a year, Con-  
gressional immigration authorities  
were little nearer the completion of  
their task than when they started it.  
So monumental did the undertaking  
appear when once fully comprehended  
that these men had little hesita-  
tion in urging Congress to extend  
the "three per cent" ban for two  
years longer, until June 30, 1924, to  
give more time to a solution of the  
problem of a permanent policy. This  
Congress did in the spring of 1922.

Since that time, an industrial re-  
vival has evolved from the depression  
into which the country was  
plunged by postwar deflation. The  
problem of unemployment which  
troubled the Administration to such  
an extent that it called a special con-  
ference to debate its solution in the  
winter of 1921 has disappeared.

Labor Shortage  
In its place is raised the problem  
of a labor shortage. For a remedy  
(Continued on Page Two)

## SLAYER OF BRUNEN GETS TWENTY TO THIRTY YEAR TERM

Mount Holly, N. J., Jan. 17.—Chas  
Powell, who killed "Honest John"  
Brunen, circus owner was sentenced  
to serve twenty to thirty years in  
prison by Judge Caliph in Supreme  
Court. The murder was done in  
Brunen's Riverside Home, New Jer-  
sey on March 10th last.

## CLAY MINER DIES AT HOME AT SALEM

His spine fractured by a fall of  
rock in the clay mine on May 21,  
1918, and bedfast since that time,  
Fleming Waple passed away at his  
home at Salem, Clearfield county, on  
Sunday, Jan. 14th.

The deceased, who was born April  
9, 1892 was married, but had no chil-  
dren. He belonged to the Clearfield  
Red Men's organization.

Funeral services will be held at  
the Waple residence at Salem at 2  
o'clock Wednesday afternoon and the  
remains taken to Bigler for burial.

Miss Lela Hall of Hyde returned  
Saturday from a three month's visit  
with relatives and friends in Phila-  
delphia and New York.

Samuel L. Warner, general manag-  
er of the Clearfield Sewer Pipe  
Works, is attending the annual meet-  
ing of the company at Akron, Ohio.

## OPEN HEARING NEARS END AS WITNESSES REFUSE TO TESTIFY

Bastrop, La., Jan. 17.—Witnesses  
called to the open hearing in the More-  
house Parish reign of terror began  
fighting back today.

Objection to further examination  
of E. Gray was raised today by W.  
Barnett, who announced he had been  
retained as counsel. "We learn  
from published reports and from  
other testimonies that he is being the  
first to be accused in a sense in this  
affair," Barnett told the Court. "He  
has retained counsel and we decline to  
answer any further question for the  
reason that it might be used to in-  
timidate me, or that testimony given  
now might incriminate me."

Barnett in his address to the Court  
also revealed that a number of oth-  
ers, expecting to be called as wit-  
nesses, have retained counsel.

## HARDING IMPROVES

Washington, Jan. 17.—President  
Harding showed vast improvement  
from the attack of gripe which  
caused him to leave his desk yester-  
day and was confined to his room to-  
day.

The President's condition result-  
ing from a severe cold of a week's stand-  
ing is not serious but Dr. Sawyer,  
his personal physician, desires that  
he remain quietly in his room and  
not tax his strength for a day or two.

## LEAVING FOR CALIFORNIA

B. F. Minnick and daughter, Miss  
Blanche Minnick, Clearfield resi-  
dents for many years, have disposed  
of their Third street property and  
leave at noon tomorrow for Califor-  
nia, it being their intention to make  
their future home on the Pacific  
coast. Their many Clearfield friends  
regret very much to lose these good  
people from our midst, but unite in  
wishing them God-speed on their  
journey and every success in their  
new home.

## POPULAR YOUNG PEOPLE WED

Miss Thelma Althea Carr and Ar-  
thur Charles Swisher, formerly of  
Phillipsburg, but for some time a re-  
sident of Clearfield, surprised their  
many friends by quietly slipping  
down to the Presbyterian parsonage  
on Tuesday morning, Jan. 16th, and  
having Rev. Dr. E. C. Reeve say the  
words which united them in the holy  
bonds of matrimony.

They were attended by the bride's  
mother, Mrs. Earl Carr. Dr. Reeve  
used the beautiful ring ceremony of  
the Presbyterian church.

The happy young couple are well  
known in this community. The bride  
is the daughter of Mr. and Mrs. Earl  
Carr, of Clearfield street, while the  
groom is the son of Harry Swisher,  
of Phillipsburg. Their many friends  
wish them a long and happy married  
life. They will reside in Clearfield.

## To Argue The Consolidation of Railway Systems

Washin-ton, Jan. 17 (United  
Press).—Three great system-consol-  
idations of western transcontinental  
railroads and their feeders in the  
rich agricultural regions of the mid-  
dle west, as tentatively drafted by  
the Interstate Commerce Commission  
and proposed to the railroads invol-  
ved, were to be submitted to argu-  
ment before the commission here  
today.

Plung across the vast domain  
west of the Mississippi in three par-  
allel bands from Chicago to San Fran-  
cisco, the consolidations would carry  
the bulk of the nation's transcon-  
tinental traffic.

The consolidations under discus-  
sion here today are of the Union Pa-  
cific with the Chicago and Northwest-  
ern System No. 12; the Atchison To-  
peka and Santa Fe with the Western  
Pacific (including the Denver and  
Rio Grande) System No. 16; and of  
the Southern Pacific with the Chic-  
ago, Rock Island and Pacific System  
No. 17. Other minor roads are in-  
cluded in each consolidation as feed-  
ers to the main trunks.

The purpose of the consolidation  
proposed by the Commission under  
the authority of the Transportation  
Act of 1920 is to strengthen the  
country's network of carriers by  
grouping weak roads with strong,  
and to enhance the public interest by  
creating great competitive systems  
in the nation's several regional sub-  
divisions, such as the Northwest,  
the Southwest and the Mississippi Val-  
ley. At the same time, the Commis-  
sion is endeavoring to create sys-  
tems of approximately the same val-  
uations, so that uniform rates may  
be charged over the whole country,  
all under the direction of the Com-  
mission.

The commission has previously  
held hearings on consolidations in  
Southeastern and Northwestern  
United States. Objections to its  
plans were voiced by the carriers in-  
volved in both sets of hearings. Sim-  
ilar objections are expected to be  
advanced by the roads involved in to-  
day's hearings. The Union Pacific  
in particular is violent in its oppo-  
sition to the Commission's plan to  
bracket the Central Pacific (now part  
of the Southern Pacific interests)  
with the Southern Pacific, because  
such grouping would shut the Union  
Pacific out of the port of San Fran-  
cisco. The Union Pacific now uses  
the Central Pacific under an agree-  
ment.

Willie Lindgren spent yesterday in  
Irvona.

The E. E. Lindemuth family and  
friends returned to Bradford yester-  
day.

Mrs. Geo. W. Thomas, of South  
Fourth street, left today for Pinellas  
Park, Florida, where she will remain  
for some time.

Mrs. Myles Thomas left today for  
a visit to her home in San Antonio,  
Texas.

## Women Leaders from 35 Nations To Attend Conference In U. S.

### International Council of Women To Hold Sessions At Washington

Philadelphia, Jan. 17. (U. P.)—The  
Quinquennial of the International  
Council of Women, is to be held in  
this country, probably at Washing-  
ton, during the early summer of 1925,  
according to Mrs. Nathaniel E. Har-  
ris, vice president of the National  
Council of Women and chairman of  
the Quinquennial Committee.

The International Council of Wom-  
en is a Federation of National  
Councils of Women in thirty-five  
countries, for the promotion of unity  
and mutual understanding between  
all associations of women working  
for the common welfare of humanity.  
It was formed in Washington in  
1888 and, after the World's Fair at  
Chicago in 1893, the Council spread  
to Europe. The last Quinquennial  
was held in Kristiana, Norway in  
June, 1920.

Delegates from the following coun-  
tries will attend the Quinquennial in  
Washington: Canada, Sweden, Great  
Britain, Ireland, Denmark, Holland,  
Australia, New Zealand, Italy,  
France, Argentina, Switzerland, Aus-  
tria, Hungary, Norway, Belgium,  
Greece, Yugoslavia, Finland, South

## SYSTEM OF DISPENSING AID TO STATE CHARITIES FIRST BIG PROBLEM THAT INCOMING GOVERNOR HAS TO FACE

### WOMEN'S CLUB IS ENGAGED IN HAVING STREETS MARKED

Strangers arriving in Clearfield by  
way of our railroads and desiring to  
reach some definite locality in the  
town are often put to great incon-  
venience before they arrive there.

At the passenger station some one  
can always be found to give them the  
general direction, but after that  
they must ask from square to square  
for their destination.

Even the people who have been  
born and raised here in Clearfield do  
not know the names of the various  
streets, especially in the newly devel-  
oped parts of town.

The need for the proper marking of  
streets—the names being clearly  
shown on at least one corner of the  
two intersecting streets—is certainly  
recognized by all those who wish to  
have Clearfield rank as an up-to-date  
town.

The Women's Club, realizing the  
need of these markers, sent a repre-  
sentative to the Borough Council  
asking permission to put them up.  
This was granted and the work will  
be commenced in the near future.

The Club will purchase a No. 1  
ceramic markers, to be put up in a  
neat workmanlike manner, the whole  
to be of a good substantial character  
to last indefinitely. Personal re-  
quest will be made of property own-  
ers, by members of the Club, for per-  
mission to place the same on their  
premises.

As the financial outlay will be large  
the Club is arranging a series of  
money-making affairs to defray ex-  
penses. Mr. Geynet of the silk mill  
kindly offered his recreation hall to  
be used for this purpose and a pro-  
gressive card party will be given  
there Friday evening, Jan. 19, at 8  
o'clock.

As all the money realized at this  
party will be used for the benefit of  
the town, it should be well attended  
and the good work helped along.  
The bus which leaves the Court House  
at 8:10 goes right by the door and  
will be there to bring you back.

## Women Leaders from 35 Nations To Attend Conference In U. S.

Philadelphia, Jan. 17. (U. P.)—The  
Quinquennial of the International  
Council of Women, is to be held in  
this country, probably at Washing-  
ton, during the early summer of 1925,  
according to Mrs. Nathaniel E. Har-  
ris, vice president of the National  
Council of Women and chairman of  
the Quinquennial Committee.

The International Council of Wom-  
en is a Federation of National  
Councils of Women in thirty-five  
countries, for the promotion of unity  
and mutual understanding between  
all associations of women working  
for the common welfare of humanity.  
It was formed in Washington in  
1888 and, after the World's Fair at  
Chicago in 1893, the Council spread  
to Europe. The last Quinquennial  
was held in Kristiana, Norway in  
June, 1920.

Delegates from the following coun-  
tries will attend the Quinquennial in  
Washington: Canada, Sweden, Great

Greece, Yugoslavia, Finland, South

State Printing Also Is  
Getting Attention from  
Advisers, Who Have  
Program Prepared.

## WILL STANDARDIZE

Philadelphia, Pa., Jan. 17. (U. P.)  
—Governor Gifford Pinchot will re-  
commend many changes in the state  
charity aid system and advise state  
printing reforms when his budget is  
presented to the legislature, either  
the latter part of this month or early  
in February.

The Governor will be guided by his  
"Citizens' Committee of Eighteen"  
which investigated state finances. A  
resume of the committee's report on  
charity aid follows:—

"An urgent recommendation that  
the state's appropriations to private  
charitable institutions shall be made  
hereafter as compensation for service  
rendered and not as legislative fav-  
ors.

"The present method of making  
these grants in the shape of separate  
lump sum appropriations to more  
than 300 designated institutions, is  
characterized as haphazard, unscien-  
tific and inequitable, capable of seri-  
ous political abuse, calculated to  
bring increasing burdens upon the  
Commonwealth and yet to prevent  
the development of a well-balanced,  
adequate and effective system of wel-  
fare agencies in the state.

"The present method of appropria-  
tion results in gross inequalities of  
treatment between institutions in  
substantially the same circumstan-  
ces."

The committee, headed by K. L. M.  
Pray, director of the Pennsylvania  
School of Social and Health Work,  
recommended the following:

"1. That state aid be confined to  
three great classes of agencies—hos-  
pitals, institutions, and agencies for  
the care of dependent, neglected and  
delinquent children, and homes for  
the aged and infirm.

"2. Appropriations to institutions  
of the three classes proposed should  
be made, not in separate, individual  
sums, but in one general appropria-  
tion to each class to be paid out to  
individual institutions in accordance  
with the actual service rendered to  
patients for whom the state accepts  
responsibility.

"3. The state's compensation should  
not in any case be given for service  
to any person, who by himself or by  
any responsible relative, estate or  
corporation, or through any insur-  
ance or other relief fund to which he  
is entitled, is able to pay the whole  
cost of the service rendered to him at  
the rate fixed in the department's  
schedule.

"4. The states compensation of any  
agency should not amount to the to-  
tal cost of the service rendered to  
'free patients,' but only to some fixed  
part, say 60 per cent., of the cost,  
which should be uniform for all agen-  
cies of the same class and grade.

"5. That in the event that the fund  
appropriated is not adequate to pay  
for service of any class of agencies  
at the rate fixed, the fund available  
be apportioned pro rata among the  
agencies, in the proportion to the  
amount earned."

The state printing system is in  
need of recasting, according to Dr.  
Clyde L. King, who made a survey  
of that industry for Governor Pin-  
chot.

To put the state's printing and  
binding on a new basis some new  
laws will be required.

"The present specifications which  
are part of the law of the state are  
so loosely drawn as to definitely pro-  
hibit any conservative business man  
from bidding for the work," Dr. King  
reported. Dr. King's recommenda-  
tions follow:

"That the state discontinue its  
present practice of furnishing its  
own paper in connection with print-  
ing and binding and thereafter con-  
tract for each piece of printing and  
binding as a unit, including paper.

"All of the state work should be  
brought within a limited number of  
different layouts and styles of com-  
position. These various forms should  
(Continued on Page 4).

These are the two factions that are at grips on Capitol hill today.

## A Permanent Policy

In this atmosphere surcharged

Syracuse, N. Y.—Statistics just compiled by the sales department of the Franklin Automobile Company show during the year just ended 68% of Franklin shipments were closed cars, an increase of 16% over the preceding year. In 1919, Franklin closed car shipments represented 28% of the whole. In 1920, the percentage was 45% and in 1921 it was 52%.

In commenting on the fact tha

Franklin closed car shipments had increased 40% within three years of time and that the present day demand for Franklin closed car models was so great that better than two-thirds of the factory production was concentrated on closed cars. Sales Manager S. E. Ackerman said:—"So far as we can learn, no other manufacturer is turning out such a large percentage of closed cars. Six of our seven models are closed cars. The popularity of the closed car seems to be increasing all the time."

Entered in Post Office at Clearfield, Pa. as second class mail matter

Gifford Pinchot, Speaker Goodnough and President Eyre need to take a look at the map of Pennsylvania. Should they do so they will find a county named Clearfield, which has one perfectly good Senator and two equally good Representative, at least we believe they will prove to be good after a trial, though all are newcomers in the legislative hall.

The appointments to committees in the Senate were given out last night and our Senator, William I. Betts, did not get a place on a single one of the important committees. This may be explained by reason of Mr. Betts being a Democrat, but that is a weak excuse. Clearfield county has a right to representation. The principal committees are Finance, Appropriations, Judiciary General, Judiciary Special, Law and Order, Municipal Affairs and Public Roads and Highways. There are other less important committees and Mr. Betts has no doubt been named on some of them.

Senator Joseph O. Clark, of Indiana county, was handsomely recognized by appointment on the Appropriations, Law and Order and Public Roads committees. Senator Clark is very much interested in the work of these committees and we are gratified to note his recognition.

In the House Clearfield county got it in the neck just as badly. W. Haley Betts of DuBois and Charles B. Jones of Clearfield District are not listed in a single one of the five most important committees: Ways and Means, Law and Order, Judiciary General, Judiciary Special and Appropriations.

Clearfield is going to have its streets plainly marked so that the newcomer, the stranger and the fellow whose business takes him on hasty errands to various parts of the city, can find the object of his search.

We make this assertion because the women of the Women's Club say it is going to happen, and we believe that is good authority, for when the women start out to do something it is done.

The women are to be complimented. It is a considerable task and probably cannot be accomplished without the expenditure of a sum ranging anywhere from five hundred to a thousand dollars.

Council, through its street committee, should have looked after this many years ago and kept the work up as the boundaries of the city expanded. Now, Council should meet the women half way and help to get the signs erected.

Some may think that it is an unnecessary thing to do, but for the average citizen such direction as, "he lives on the upper end of the old Shaw lot," or "over by the old show ground" is meaningless and confusing.

## ELKTON'S OWN INDUSTRY

So many scandals, mostly minor, but all unsavory, have grown out of Elkton marriages in the past year that Governor Ritchie seems likely to join with the Maryland Legislature in enacting a statute to curb the matrimonial industry.

Last year the Governor vetoed a law, which stated a blow at the marriage of elopers, because it applied only to a few of the courtiers. Now he is indignant over some recent occurrences, notably a union of minors, accompanied by parents in youth state of his age. So there is a prospect of a law in Elkton own peculiar industry of marriage between two.

Meanwhile the law passed last year permitting the coupling of cabmen or other tout, by "marrying" them, and thus effecting a more than an impartial distribution of customers by the drivers of vehicles who render first aid to highway.

## PERSONAL SERVICE

The old time idea of a bank as a chilly place for all but the wealthy, is a thing of the past.

The modern bank is a place where the business of the modest depositor is welcomed; where the officers are easily accessible at all times.

The County National is a modern bank. The officers are always glad to meet the people and to give personal attention to their business.

## 'Ford' Skirt Is a Freak

By EDNA HOLT  
(Fashion Editor of The United Press)  
(Written for the United Press)  
Paris, France, (By Mail to United Press) — The key to the mystery of the "Ford" skirt may originate in Paris, but it is a "wild-eyed" American who is the one to think for a cheap American paper to see who puts them into vogue.

One of the hundreds of Parisian girls who pick up a "Ford" skirt, which has never entered the scene in Paris, brings it to an American store, where it is duplicated by the thousands, and sent to the United States. The "Ford" skirt is a "freak" in the eyes of the American public, but it is a "freak" in the eyes of the Parisian public. The "Ford" skirt is a "freak" in the eyes of the American public, but it is a "freak" in the eyes of the Parisian public. The "Ford" skirt is a "freak" in the eyes of the American public, but it is a "freak" in the eyes of the Parisian public.

Do you know the "Ford" skirt? It is a "freak" in the eyes of the American public, but it is a "freak" in the eyes of the Parisian public. The "Ford" skirt is a "freak" in the eyes of the American public, but it is a "freak" in the eyes of the Parisian public. The "Ford" skirt is a "freak" in the eyes of the American public, but it is a "freak" in the eyes of the Parisian public.

JACK OBOYLE, President DuBois, Pa. The "Ford" skirt is a "freak" in the eyes of the American public, but it is a "freak" in the eyes of the Parisian public. The "Ford" skirt is a "freak" in the eyes of the American public, but it is a "freak" in the eyes of the Parisian public.

Mary Lack Adequate Food. It is probable that less than one third of the population get adequate food.

Lanet a Fighting Bird. Lannets are great birds. They are deadly enemies to the farmer and are a great pest to the farmer. They are deadly enemies to the farmer and are a great pest to the farmer.

## Wise Practice of the Incas

The Incas ancient rulers of Peru were one of the earliest authentic examples of the high eugenic development of the human race. Their system of choosing each year the finest physical specimens of young men, and from all classes to become the sons of the emperor, was a practical application of the eugenic principle.

## REPORT OF JOHN A. STOCK, DESERTION-PROBATION OFFICER

From January 1, 1922, to January 1, 1923.

The following report is respectfully submitted:

Number of cases in which I was consulted and in which no legal action was taken.

Desertion and non-support cases in which warrants were issued.

Desertion and non-support cases settled without warrant.

New F & B cases.

A & B cases settled.

Guardianship appointments received.

Investigation for Red Cross for county residents.

Total number of cases.

But seven of the twenty-five desertion and non-support cases in which warrants were issued were heard by the Court, the balance of which I settled. Five of the seven cases that reached court were not investigated by me, having had no opportunity to do so; this leaves but two of which I had any knowledge, and of these two, one couple has been reunited since the hearing.

The small number of warrants issued, of which I had knowledge, is due to the counselling in my office and throughout the county. My office work is increased annually by the additional number of new cases, especially F & B cases, the number having increased more in 1922 than any previous year.

Total amount of collections in desertion and non-support cases and for the support of illegitimate children for the year 1922, \$13,796.67, being an increase of \$1572.99 over the year 1921, which shows an increase each year since the first year, 1911, when the total amount of collections was \$719.00.

# THE HOME of the CHRISTMAS SAVINGS FUND in CLEARFIELD is ALWAYS OPEN to DEPOSITORS

While it is advantageous to get an early start on that Christmas Fund for next Christmas, it is never too late to begin, and we are just as glad to see the late comer as the early one.

Realizing that many people do not have the funds to start depositing so soon after the holidays it has been the policy of this institution to hold the Christmas Fund Accounts open until all our friends can be accommodated.

The experience we gained in developing this form of saving and in handling thousands of dollars in these accounts every year make it possible to serve you to the best advantage.

Again we extend to you a cordial invitation to

JOIN OUR CHRISTMAS SAVINGS CLUB

## TO CARE FOR MENTAL CASES

ment is Seeking Young Physicists to Undergo Special Training for Veterans' Bureau Service.

Dr. Frank F. Hutchins.

The government is looking for 50 young doctors of medicine to compose an initial class for special training in the treatment of mental cases, Doctor Hutchins said.

"Neuropsychiatry is perhaps the most difficult of all the veterans' ailments," he said. "Almost anyone knows that tuberculosis is caused by a definite germ. Almost everyone knows what kind of treatment and care should be given a tubercular patient. It is much the same, however, with the combination of many other physical ailments. Hardly two of them are exactly alike. It is a difficult problem, and doctors handling these cases need special training. They must have all the patience in the world."

Doc Hutchins said it is impossible to obtain the required number of specialists in nervous and mental diseases, and that it has become necessary for the government to instruct a staff of its own for this line of work.

"The policy of the bureau is to provide medical attention for the disabled veterans so that everything possible may be done to restore them to health and proper status in civilian life," he said.

A systematic and comprehensive course in neuropsychiatry has been outlined. It consists of 176 lectures and demonstrations and some 440 hours of clinical and laboratory work. Three courses are to be given. The first, which will last four months, in the academic. The next is a post-graduate course of six weeks and the third, consists of one or two conferences a year lasting three or four days, where ideas and experiences are exchanged.

The accepted candidates will receive \$100 a month during the school work, and after graduation will be passed assistant surgeons in the reserve corps of the United States public health service, or eligible for employment at class "B" physicians under the United States civil service commission and assigned to duty with United States Veterans' bureau. These salaries range from \$3,000 a year upward.

The first class started work January 4, and at the same time schools for graduate nurses, social service, occupational-therapist and physio-therapist work began.

## BONDY GETS RED CROSS CALL

Member of Peers-Williams Post of St. Louis is Appointed Director of War Service.

Robert E. Bondy, a member of Peers-Williams post of the American Legion at St. Louis, has recently been appointed to the important office of director of war service of the American Red Cross.

Mr. Bondy has had a wide range of experience with the Red Cross since April, 1919, when he came to the organization from the naval service bureau of the chamber of commerce of Columbus, O., where he organized one of the largest war chests of the early war days, adding \$125,000 in that city in one drive.

He served as secretary treasurer of the public welfare section of the Ohio conference of public welfare in 1917 and during the war was an enlisted man.

Mr. Bondy is a native of Minnesota and received his education at Chicago university. For a time he was a reporter on the Chicago Tribune. His many duties have thrown him in contact with the work for ex-service men. This, combined with his camp experience and his training as a social service executive, peculiarly fits him for his new duties.

Representing the Red Cross, Mr. Bondy spoke at the recent national gathering of Legion state adjutants held in Indianapolis.

## Chance to Profit.

Rafferty of the Old Sod, and MacPherson, a Scot, were miners together one day Rafferty accidentally emptied his pipe on a keg of powder and when he came down it was on the instant in flames. Mac's grief was genuine, but finally he dried his tears and went off to notify Mrs. Rafferty.

"Is his the Widow Rafferty?" he asked when a woman appeared at the door.

"The Mrs. Rafferty I am, but no Widow Rafferty," she snapped.

A businesslike gleam came into MacPherson's eye.

"An' how much will ye bet?" he demanded.—American Legion Weekly.

## SEAT SALE FOR MISS BOB WHITE IS A WHOPPER

It is rather unusual to have two performances of a home talent practically sold out before the curtain rises, but such is the case for "Bob White" given by the Clearfield High School and directed and staged by Miss Ruth Blakemore of John B. Rogers Prouding Co. This play has created enthusiasm that has never been known heretofore and the cast has been solicited continually for tickets.

The curtain for the first performance will rise at 8 o'clock.

The last rehearsal was held last night and every thing went smoothly and smoothly. The cast went easy and assumes an air of professionalism, rather than nervousness, noticeable in most productions.

Seats can still be obtained at the High School, but it looks as though the S. R. O. sign is not far off and it would advise getting down the seats before it is late. Ad.

## Backache or Kidneys?

The danger signals are backache, depressions, pains, heaviness, drowsiness, irritability, headache, chilliness, rheumatic twinges, swollen joints or gout.

Meadville, Pa.—"I take great pleasure in recommending Dr. Pierce's Anuric Tablets to all persons suffering with inflammation of the bladder. I found greater relief from a few doses of Anuric than from any other medicine I ever took, and it completely cured me of this distressing and painful ailment."—Mrs. J. H. Hays, 249 1/2 Chestnut St.

Since it is such a simple matter to step into your favorite drug store and obtain Dr. Pierce's Anuric (anti-uric acid) tablets, anyone who earnestly desires to regain health and live life will waste no time in beginning this treatment.

Write Dr. Pierce, Pres. Invalids' Hotel in Buffalo, N. Y., for free medical advice.

## Tom Sims SAYS--

New England man let millions in will of 50 words so he may have done it by being a man of few words. Being frank is fine; but in Alabama a man was arrested for being frank in one town and Henry in another.

Dodgson an auto fix is about as much as dodging a man.

On looking about the chequer board of the Florida coast old folks will ask "Scholar of what?"

The report of a tailor shortage will cause very little worry. Most of us bought our suit years ago.

An Ottawa (Ill.) man who smoked in bed has quit smoking unless he went where friends say he didn't go. The only thing wrong with a country is the people.

In St. Louis a man walked into the jail and asked to be shot. Probably some fellow who believed that his wife said about him.

Two Wichita (Kas.) boys robbed a bank. There should be a law against minors robbing banks.

People would be better off reading about golden weddings was an interesting as reading about divorce.

## HOW NEWSPAPERS HELP

The newspaper starts in When you are born; Pelates about your excellence And tells about your sweetness. It follows you to school, And points the honor roll. If your name is found there, It tells of your graduation And speaks of the excellence Of your magnificent essay; It tells of your progress During your college career And then dilates much about The choice of your location. Then it gives a nice notice About your marriage.

And praise up the blushing bride Till her finstall don't know her.

Then in the out of events, It tells about the bountiful baby That happens in your family— Then, oh beginning its life work All over and over again.

The newspaper does all this And it also does much more. It tells of the progress Made by city and county And boasts all enterprises; Gives free advertising Worth thousands of dollars; Tells of its own home town.

There are a lot of things That all good newspapers do For which they cannot be paid. That is why every citizen Should do his darndest To support the newspaper In every possible way And all the time.

Yasum.

I then, you.—Palatka, Fla., News.

The small boy's kick against the unfairness of things in general is no teacher never gets sick.

Ford says he didn't try to get rich until he was 40, which was a streak of luck for Rockefeller.

A new broom may sweep clean but it always wears out.

Isn't it great that this country is not run on the European plan?

be standardized and all specifications and orders should state the style of composition required in terms of these standards.

"Standard sizes consistent with the recommendations of the committee on simplifications on paper sizes should be determined upon for all forms and books and all specifications and orders should be limited to these standards.

"A limited number of grades of paper having different folding and tearing strength and longevity,

which in their range will meet the requirements of the state printing and binding, should be determined upon.

"Manufacturers and jobbers of paper should be invited to submit samples of their standard brands of paper for classification according to these grades. No writing paper should be accepted unless watermarked with a well established watermark of a reliable jobber or mill.

"These samples should be analyzed and a revised list of brands which may be used for each of the standard grades, issued from time to time.

"All specifications and orders should state the grade of paper required in terms of the established

standard grades and the printer or binder should be permitted to use the brand of paper which has been previously classified by the state as coming within the required grade.

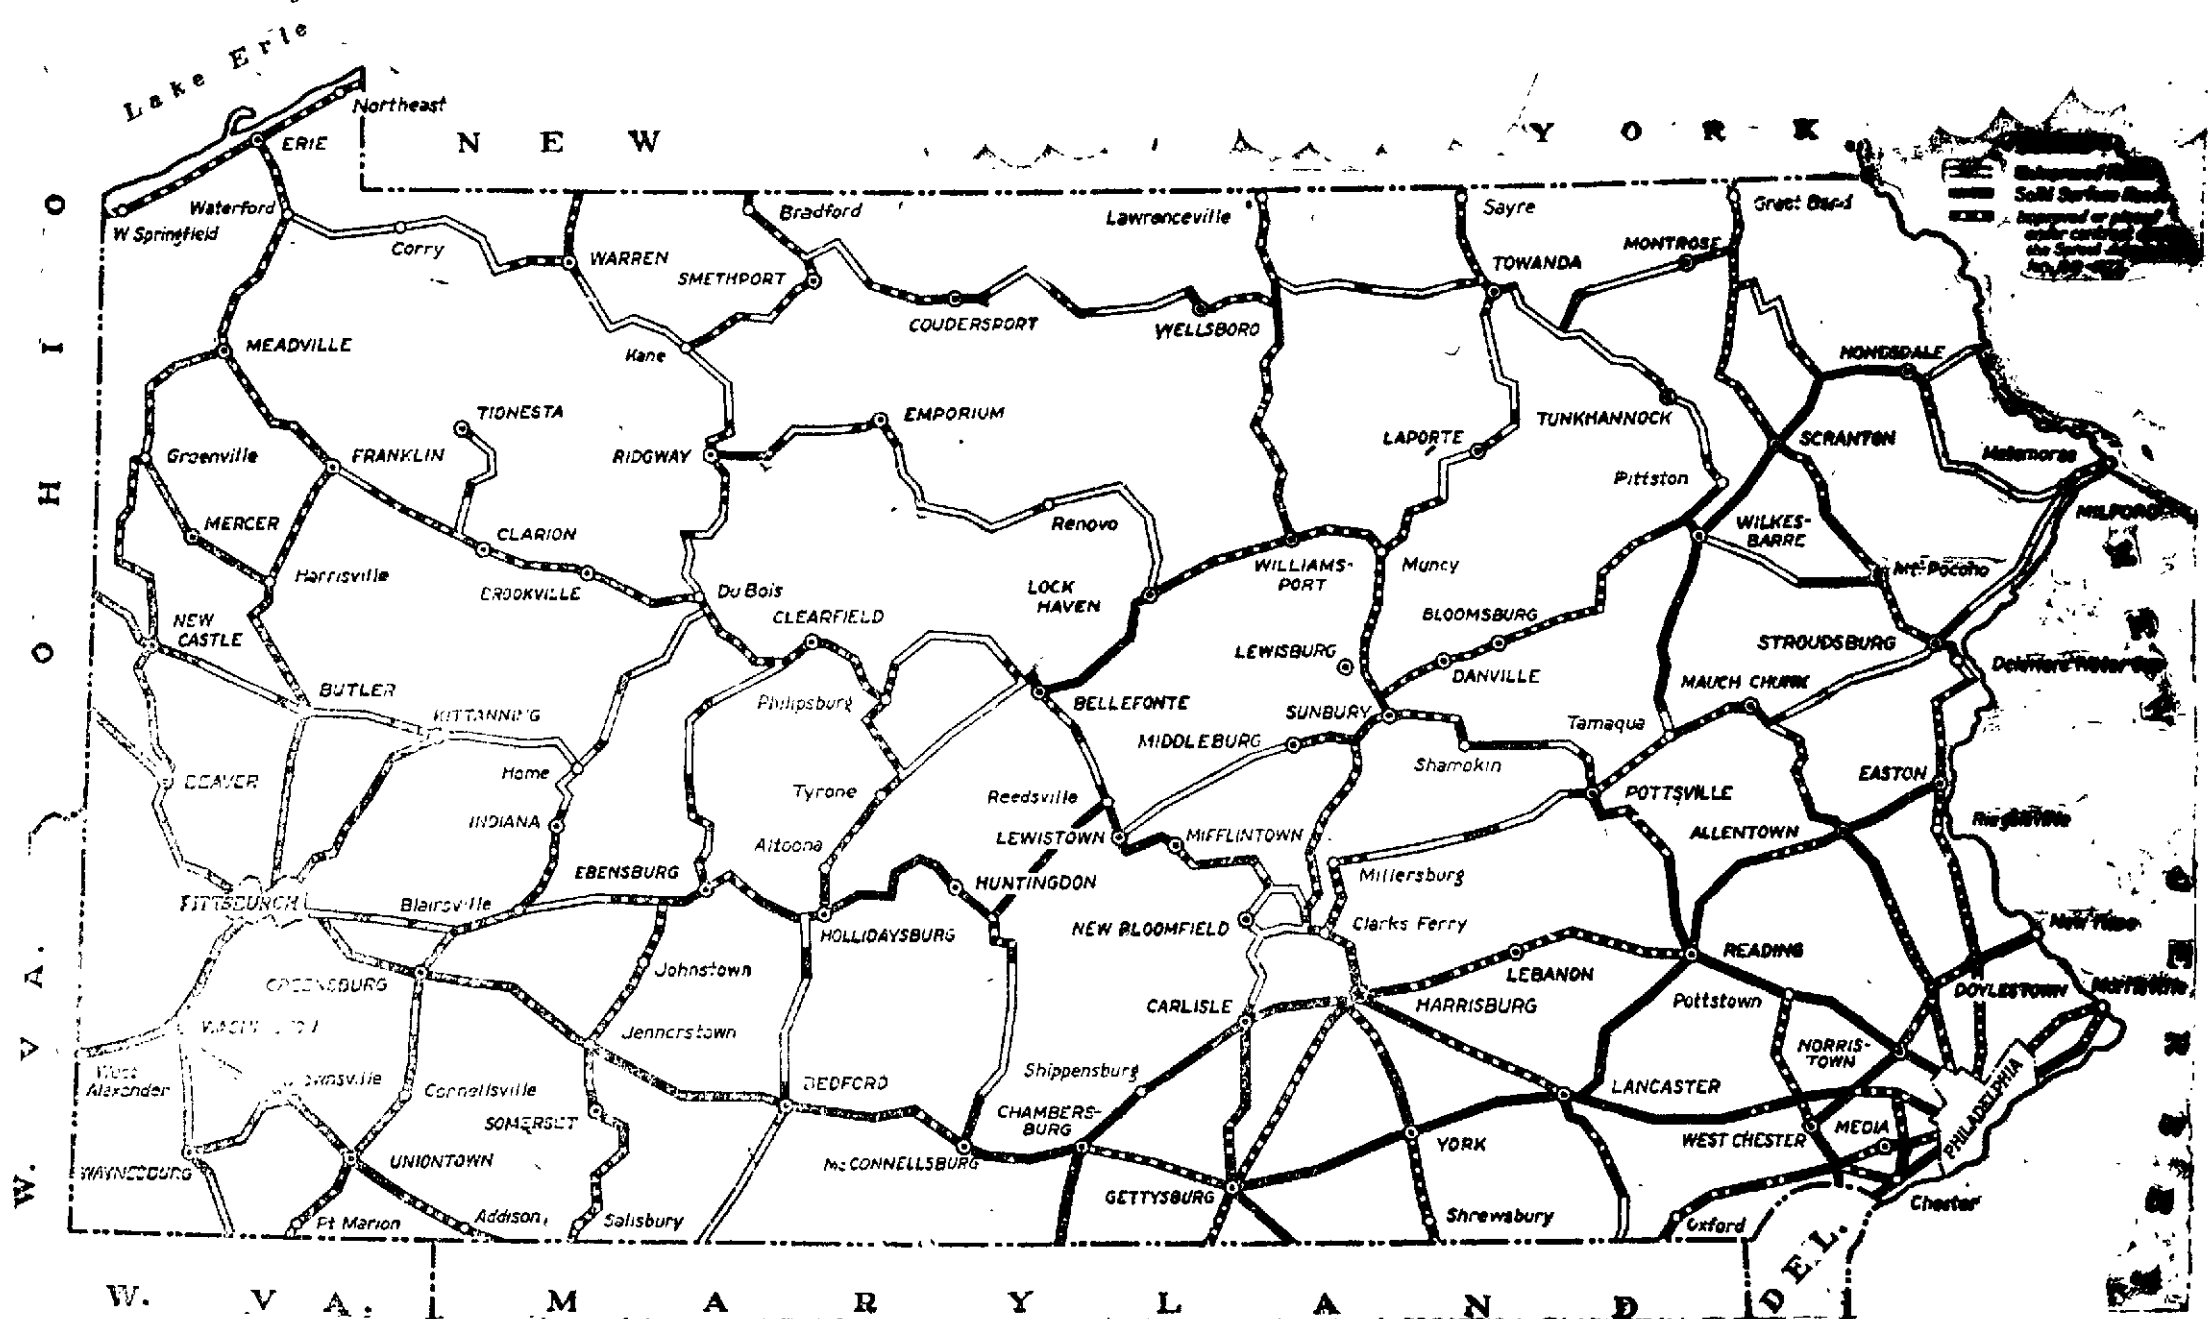

"That a bureau of standards for paper, printing and binding be created to set up the foregoing standards.

"That the period of the contract for legislative and other work necessary to be done in the vicinity of Harrisburg be made optional with the bidder.

## PENNSYLVANIA'S PRIMARY ROAD SYSTEM ALMOST ENTIRELY IMPROVED

The map shows Pennsylvania's primary highway system, composed of these roads of importance to the state at large. There are shown the solid-surface highways, the unimproved roads, and the roads improved or put under contract for improvement during the Spread administration. According to the State Highway Department this map is an accurate guide to drivers of trucks and passenger cars.

## PENNSYLVANIA ROAD SYSTEM

Harrisburg, Jan. 6.—During 1919, 1920, and 1922 the State Highway Department of Pennsylvania constructed approximately 1,815 miles of durable highway; and there remain under contract, but not completed, approximately 185 miles of similar roadway.

The Department has prepared a map showing the primary highway system, or those roads of importance to the state at large; and this map visualizes the improvement to Pennsylvania's highways accomplished since the Department first began the construction of all weather highways. It is now possible to drive approximately 700 miles on a straight-away in Pennsylvania.

The Highway Department's map is an excellent guide to Pennsylvania road users. Of the several thousand miles of Pennsylvania roads shown on the

map, only 185 miles remain to be completed; and of this 185 miles all but about 25 miles will be in use before Aug. 1, 1923.

Distances have been slashed by Pennsylvania road improvements. In traveling from Harrisburg to Erie, for instance, it was formerly necessary if the weather were wet or threatening to go via Pittsburgh, Beaver Falls, Youngstown, O., and Conneaut, O., in order to secure a maximum of all weather road surface. But now the direct road is via Lewisburg, Huntingdon, Tyrone, Clearfield, Brookville, Clarion, Franklin and Meadville; and the journey which once consumed not less than twenty hours can now be covered in twelve hours.

The New York and Ohio good road systems have been connected through the improvement of the Philadelphia, and thence southward through the Red Bank, Delaware and the Chesapeake Bay and Annapolis

Square to the Maryland line, the entire highway is improved and the section between Scranton and the New York line is one of the best in the United States.

Traffic from Scranton and Wilkes-Barre to Harrisburg within a year will use an entirely improved surface. On this route there remain to be completed two short sections near Bloomsburg and the seven mile section between Selinsgrove and Liverpool, referred to above.

Traffic from Scranton and Wilkes-Barre to Reading has a road entirely improved except for a short section between McAdoo and Tamaqua.

Beginning at a point south of Salisbury, Somerset County, there is an improved highway connecting the National Pike, the Lincoln Highway, and the William Penn Highway via Meyersdale, Somerset, Jennestown and Johnstown.

From Greenburg to New Alexandria, from which point travelers find an improved road to Indiana.

When Governor William C. Sproul assumed office in 1919, he said Pennsylvania's good roads were an asset and its bad roads a liability. The State Highway Department during the last four years has succeeded greatly in reducing Pennsylvania's liabilities.

Referring to what the Highway Department has done during the last four years, Assistant Highway Commissioner George H. Biles said today:

"In connection with the accomplishment of the Pennsylvania Highway Department since Jan. 1 1919, I have only one regret—that Lewis S. Sadler did not live to see the completion of this splendid road mileage, in which, as State Highway Commissioner, he took so intense an interest."

The Rev. Percy Stinker Grant, one of New York City's sensational story pilots, who is now under a cloud by reason of his infatuation and marriage to a divorcee, is now against the established order as to churches, marriage and about everything else he favored before being disciplined by his church authorities.

Uncle Sam's military strength for the fiscal year 1924 will be far greater than at any other time of peace in the country's history, the House Appropriations Committee showed today in submitting a report of the Army Supply Bill for that year.

The actual standing army will have 125,000 men and 12,000 officers, but the total of those constantly under arms and in up-to-date training condition will be about 625,000. Provision is made by the Appropriations

**AN ORDINANCE**

Assessing upon the properties adjoining or adjacent to the same the cost of constructing the sanitary sewer on that part of the alley lying immediately South of Nichols Street extending from West Front Street to Weaver Street, as well as the cost of constructing the two lateral or branch sanitary sewers, one extending from said main sewer in a Southerly direction along William Street to the alley lying immediately North of Clearfield Street, and the other extending from said main sewer in a Southerly direction along Weaver Street to the alley lying immediately North of Clearfield Street, in the Third Ward of the Borough of Clearfield, Pennsylvania.

Be it ordained by the Council of the Borough of Clearfield in council regularly assembled, and it is hereby ordained and enacted by authority of the same:

Section 1. That the cost of constructing the sanitary sewer on that part of the alley lying immediately South of Nichols Street extending from West Front Street to Weaver Street, as well as the cost of constructing the two lateral or branch sanitary sewers, one extending from said main sewer in a Southerly direction along William Street to the alley lying immediately North of Clearfield Street, and the other extending from said main sewer in a Southerly direction along Weaver Street to the alley lying immediately North of Clearfield Street, in the Third Ward of the Borough of Clearfield be and is hereby assessed as a sewerage tax upon the properties adjoining or adjacent to the line of said improvement as follows:

|                                |                   |
|--------------------------------|-------------------|
| Labor                          | \$810.15          |
| Cost of pipe and hauling same  | 296.27            |
| Cost of brick and hauling same | 71.90             |
| Sand, cement and oil           | 27.00             |
| Man hole lids and steps        | 36.00             |
| Blacksmithing                  | 6.95              |
| Engineering                    | 15.55             |
| Advertising ordinances         | 20.00             |
| <b>Total</b>                   | <b>\$1,371.93</b> |

The total frontage of properties abutting on the line of said sewer and the two lateral branch sewers is 2255 feet, and the cost per lineal foot assessed against the properties adjoining or adjacent to the same is \$605.7.

The names of the property owners, the number of feet of their respective properties adjoining or adjacent to said alley and street, where said sewer and the two lateral branches thereof have been assessed are as follows:

|                                                                                                                               |          |

Committee, however, for nearly double that number by requiring that enough supplies shall be constantly on hand for 1,000,000 men. This is explained by Chairman Madden (Rep., Ill.) who said:

"To prevent the reduction of the reserves below the quantity required in emergency a provision is recommended in the bill that no issues shall be made which would impair the reserves held by the War Department for two field armies, or 1,000,000 men."

The committee recommends total appropriations of \$314,004,234, of which \$248,797,051 is for military activities and \$65,267,243 for non-military. The latter includes \$37,000,000 for rivers and harbors and \$17,000,000 for completion of Wilson Dam at Muscle Shoals. For 1923 the total appropriations were \$330,074,738.87.

Total men in the army or in training is: Enlisted strength of the Regular Army, 125,000; officers, 12,000; Philippine Scouts, 7,000; reserve officers, 101,000; National Guard 215,000; young men in schools and colleges, 110,000; civilians trained the current year in camps, 22,000; civilians to be trained in the next fiscal year, 30,000.

"Never before has the country possessed so many military resources in trained men and material," Mr. Madden said. "Our Regular Army now has double the number of highly trained commissioned officers it had before the World War, and an enlisted strength 25 per cent. larger than before the war. The National Guard is nearly 100 per cent. larger and a far greater military asset to the nation than ever before."

Gen. Harbord, former Deputy Chief of Staff, said conscriptive selection should be continued as a policy in filling out the skeleton of a great armed force for emergencies.

Dr. Asa B. Davis, of one of the big New York hospitals, banks his professional reputation on the statement that bowlegs are going out. He doesn't charge it to the fact that long skirts have already come. Dr. Davis is chief surgeon at the Lying-in hospital in New York and every week he and his assistants examine one thousand new babies. He finds the (1) type of legs a fast going way to the (2) type. Also the X and Y types are giving way to the straighter form.

"The reason," says the doctor, "is not that parents no longer teach babies to walk too soon, but that mothers of today have been taught to exercise greater care in preparing infant diet. Bowleggedness is really caused by malnutrition, a simple deficiency in bone-making calcium. Vitamins, in good milk, fruit juices, grains and vegetables, are rapidly eliminating rickets in centres where health information is made easily available. Mothers are learning to straighten legs depend on proper diet."

A Pennsylvania couple named Coffey and Shugars were married down at Millintown Monday. That ought to prove to be the right combination.

Our old friend Benjamin Franklin, the 217th anniversary of whose birth we celebrate today, in addition to his many other accomplishments, was one of America's first great athletes. He was a proficient long distance swimmer even at the age of sixty and also excelled in wrestling.

He wrote some books on the art of swimming, and while in England swam races frequently in the River Thames.

Ben was a kite flyer long before he used that "machine" for pulling electricity out of the sky, as the following from his pen will show. In a little book on swimming Ben says:

"When I was a boy I amused myself one day with flying a paper kite, and approaching the bank of a pond, which was near a mile broad, I tied the string to a stake, and the kite ascended to a very considerable height above the pond, while I was swimming. In a little time, being desirous of amusing myself with my kite, and enjoying at the same time the pleasure of swimming, I returned and loosing from the stake the string with a little stick which was fastened to it, went again into the water, where I found that, lying on my back and holding the stick in my hands I was drawn along the surface of the water in a very agreeable manner."

"Having then engaged a boy to carry my clothes round the pond to a place which I pointed out to him on the other side I began to cross the pond with my kite, which carried me quite over without the least fatigue and with the greatest pleasure imaginable. I was only obliged occasionally to halt a little in my course and resist its progress when it appeared that by following too quick I lowered the kite too much; by doing which occasionally I made it rise again."

"I have never since that time practised this singular mode of swimming, though I think it not impossible to cross in this manner from Dover to Calais. The racket boat, however, is still preferable."

THE STORM will hit here Friday.

## NEWS OF OUR NEIGHBORS

### CURWENSVILLE

House to house evening prayer settings are being held in town this week by the members of the M. E. congregation. This is done each year prior to the holding of revival services.

Earl McFadden, Grampian road, has been seriously ill for several weeks with colic and is not gaining any rapidly and is unable to partake of any solid food.

James Leonard, of LeConte Mills, was in this neighborhood the latter part of last week testing scales at higher and pyramid mines. He holds the position of scaler of weights and measures.

Frank Norris, second son of Samuel G. Norris, has gone to Altoona to work in the Pennsy railroad there.

Mrs. J. E. Kelly, Andover, has been confined to her bed for two weeks past. She is not recovering as rapidly as her friends would desire.

John Willis has removed from Grampian road to a new home at which point he is now acting as superintendent of the Crescent Refractories brick plant. His former home, he has resigned.

Rev. J. C. Collins informed us yesterday that he had arranged to start the annual revival meetings in the Methodist church Sunday evening.

Mrs. Robert Welsh, of Lock Haven, who came to Clearfield a few days ago to consult a physician, was a guest of Mrs. M. F. Crowder last night and today.

Howard Thompson and wife went to Harrisburg Monday to attend the inaugural ceremonies of Governor Pinchot. He had some other business in mind at the same time, killing two birds with one stone.

Roy Dougherty, who has filled the position of general superintendent of Crescent Refractories brick plant, has resigned, and will go to Texas within a week or two to take up bridge construction work.

Mrs. I. Kantar went to Clearfield yesterday to attend a showed given in honor of Miss Harris.

Harry Shick, one of the reliable sufferers at the tannery, is confined to his home on Susquehanna avenue by illness.

Johnston Hamilton, a well known resident of Luthersburg, died Saturday after a short illness, about 79 years. Deceased was well and favorably known to many Clearfield and Clearfield people.

### BIGLER

Mrs. Tillie Shoemaker of New Liberty is visiting her sister, Mrs. H. R. Williams.

Howard Stevens spent Sunday with relatives in Oscoda, Mich.

Mrs. G. B. Thompson and daughter Betty were shopping in Clearfield Tuesday.

Frank Rinehart is slowly improving after a severe attack of scarlet fever.

Mr. and Mrs. Hamer Tate spent Sunday with relatives in Philipsburg.

Mrs. Irvin Wisor has returned to her home after being a patient at the Clearfield hospital for the last three weeks.

Mr. and Mrs. Elmer Rawles gave their little daughter Jean a surprise party on Saturday afternoon, it being her sixth birthday when 12 of her little playmates gathered in to enjoy the occasion. There were

### REAL BUCKWHEAT FLOUR

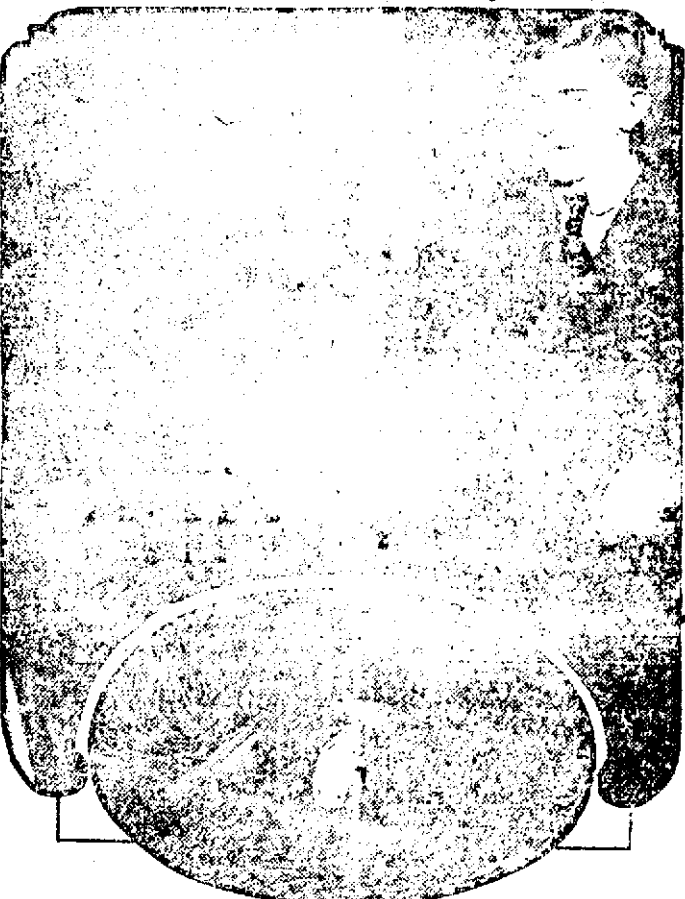

Fresh ground Buckwheat Flour, Sharville Brand, Ground in the good old-fashioned way. Delivered anywhere. Also baked timothy and clover hay. All orders promptly attended to. Call A. B. Lansberry, Woodland R. D. or Bell phone 904-31, for prices, etc.

### Iowa Heavyweight Beats Brennan

Floyd Johnson (inset) advanced another step toward his opportunity to face Jack Dempsey for the heavyweight title, when he defeated Bill Brennan, veteran washhorse, in a 15-round bout in Madison Square Garden, New York. Picture shows Brennan slipping to the floor in the fifth round.

### Pig's Eye to Restore Boy's Sight

The sight of blind Alfred Loman, of Lyndhurst, N. J., is expected to be restored by grafting into his eyelids a pig's eye. The pig shown above, Dr. Edward Morgan of Paterson, N. J., who has already successfully performed a similar operation, will transplant the eye.

games of all kinds and music. After lunch for the little ones were seated around the table to enjoy the refreshments. Everyone started for home with a happy and happy birthday.

### NEW PAIGE MODEL IS REMARKABLE FOR SILENCE

That the makers of the Paige have made good their claim to produce a silent motor car is indicated by the quiet test and demonstration of the new Paige 6-70 model.

"Three of the important improvements in the new model have a new degree of silence as their aim," says Mr. H. M. Jewett, president of the Paige Company. "The new type of chain drive in the front of the motor gives motor silence with satisfaction."

### THROW OUT THE LINE

Give Them Help and Many Clearfield People Will Be Happier.

"Throw Out the Line!" Weak kidneys need help. They're often overworked—they don't get the proper filtered out of the blood.

Will you help them? Doan's Kidney Pills have brought relief to thousands of kidney sufferers.

Charitable testimony leave their words. Ask your neighbor! Philip Brown, R. D. No. 2, Clearfield, says: "I had an attack of kidney trouble. There was a continual dull ache in my back that bothered me and I was tired out all the time. I used Doan's Kidney Pills and they did me a lot of good, removing the poisons from my blood and I feel fine now."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lucas had. Foster-McBarn Co., Mfrs., Rochester, N. Y.

### THE OLD HOME TOWN — By Stanley

THE PAPER HANGER WHO IS WORKING AT AUNT SARAH PEABODY'S COTTAGE DIDN'T SIT IN HER NEW RED PLUSH ROCKING CHAIR VERY LONG TODAY.

### This Is The Night The High School Players Will Show Their Talent

The presentation of "Bob White" tonight and tomorrow night at the High School Auditorium under the auspices of Clearfield High School will represent an evening of solid comedy and pleasing, catchy musical hits.

The cast is familiar with all parts of the production and it is going to be a surprise for the people of Clearfield to witness a play that is really professional and put over in a professional way by amateurs.

Miss Blakemore, the director for John B. Rogers Producing Co., is very well pleased and predicts that the production will be an excellent one from an artistic standpoint because of the talent that has been selected really fitted for the parts they are to take.

Seats can be obtained at the High School and from the heavy advance sale both for tonight and Thursday, it looks as tho the theatre will be taxed each performance to its capacity. Reservations should be made immediately, as there are but really few choice seats to be obtained. Admission—free.

"Squeaks are caused by the liberal use of anti-squeak. At no point in the body of the new Paige does metal touch metal or metal touch wood. For instance between fender and body is found a double fold of patent leather that eliminates all possibility of squeak or rattle. It also insures a neat and water-tight fit. This type of construction, now featured in the new Paige, has heretofore been found only in the most expensive custom-build automobiles.

"These three important improvements are typical of many detailed betterments that we believe will give to the new Paige unusual smoothness and silence among the automobiles."

### For Cold on the Chest

Musterole is easy to apply and it does not blister like the old-fashioned mustard plaster.

Musterole is a clean, white ointment, made with oil of mustard. Simply massage it in gently with the finger tips. You will be delighted to see how quickly it brings relief.

Get Musterole at your drug store, 35¢ a 60c. jar; tubes; hospital size, \$3. BETTER THAN A MUSTARD PLASTER

### Gossip For Tonight's Tea Table

Mr. and Mrs. W. I. Betts are spending a few days in Harrisburg. Mary Catherine Whitehill is ill at her home on Nichols street with diphtheria.

Mrs. Webb Shillingford is spending some time in Atlantic City with M. Oliver Babcock of Chicago.

Mrs. Elizabeth Ibersen and little daughter of Philipsburg are spending a week with Mrs. Ibersen's sister Mrs. C. H. Oberdick on Ogden avenue.

Bobbi Davis of Ogden avenue is a surgical patient at the Clearfield hospital.

M. S. Bowie returned last evening from an extended trip to Pittsburg, Akron and Buffalo.

L. C. Mattum transacted business in Philipsburg and Osceola yesterday.

Miss Doll Woy of Johnstown is visiting Mrs. D. W. Speck at her home on Market street.

John Howe and daughter Margaret of Morrisdale attended the funeral of James Beauregard.

Dr. and Mrs. G. E. Mack of Woodland spent Tuesday evening with friends.

Blaine Iames is spending a week with his brother, Howard Iames of Pittsburg.

Mrs. Eleanor Miller is confined to her home on Front street with a severe cold.

Miss E. May Witherow has returned from spending several days in Warren.

J. Lynn McPherson is able to return to his work after being confined to his home with gripe.

Webb Shillingford has returned from a business trip in the East.

Mrs. D. W. Speck has returned from a visit with Mrs. Howard Piggett of Philadelphia.

Mrs. William Brown of Barrett spent last evening with her parents, Mr. and Mrs. W. E. Davis on Eleventh street.

Mr. and Mrs. W. C. Watson have returned from Williamsport where they attended the funeral of Mrs. Watson's father, Mr. Lewis.

Mrs. Reginald Stevens of Woodland spent Tuesday evening with her parents, Mr. and Mrs. Davis on 11th street.

There will be special communion services at the Lutheran church after the "Quiet Hour" services.

Miss Helen Philips is able to be out again after a week's illness with the gripe.

What We Are.

For when we look it in the face, it is an awful thought that we cannot prevent our real character from doing its work among men, and what we are, not what we seem, is that which is really influencing others.—Stopford Brooke

### A GIRL, TWO MEN, LONELY CABIN, TROUBLE

The awesome stillness of frozen wastes, snowbanked—  
The whispering quiet of giant, snow-weighted sentinel trees—  
A primitive man—

A sick or women and tired of love—  
An innocent girl thrown upon them by chance—  
And a cabin in the midst of the loneliness.

Put these all together, they spell "trouble." And so they do in the Universal-Jewel production, "The Storm," starring House Peters at the

Driggs theater next Friday and Saturday.

It is a picture of top notch calibre, with Matt Moore, Virginia Valli, Joseph Swickard, Gordon McFee, and Frank Lanning in support of Peters directed by Reginald Barker, the producer of "The Old Nest."

Langdon McCornack wrote the play from which the picture was adapted and which made New York stage history. "The Storm" was the sensation of a season and its dramatic possibilities were readily recognized by the

versal.

was demented, the doctor said, due to his spine wound and as the family he was boarding with claimed to be afraid of him and wanted him taken away from their home, it was our duty to provide for him.

I talked to Dr. Wilson about taking him to the Clearfield hospital, but he said they had no padded cell at the hospital and the man, LaPaine by name, had better be taken to the County Home for the present.

It then being too late to get in touch with the County Commissioners I went into their office the next morning and arranged with Commissioners Dale and Farrell to have the comrade placed in the home. When we went down to the Benedict home for him we found his uncle or brother had come on from Patton and taken him to their home.

If any one else wants to know anything more about this man's welfare send him around; we take care of our own members or comrades in distress.

Yours respectfully,  
A. D. NELSON,  
Com. V. F. W. No. 971

Scoured a Church.

A fine old church in Boston, which has received many coats of paint since it was built in 1810, has recently been scoured from top to bottom. The removal of the old yellow and gray paint revealed a finely laid masonry, much better to look at than its late coverings.

will fight Pancho Villa this spring for the flyweight crown.

Dundee thru the Clearfield Boxing Association wants to post a forfeit of \$200.00 for the bantamweight championship of the world to fight at any date the contender wishes. Dundee has been in 196 fights and K. O. by Kid Williams, former bantamweight of the world, in the 9th round of their fight in 1921.

Any time Joe Lynch, bantamweight champion, is ready Dundee will make the weight and put up the forfeit to fight.

Driggs theater next Friday and Saturday.

It is a picture of top notch calibre, with Matt Moore, Virginia Valli, Joseph Swickard, Gordon McFee, and Frank Lanning in support of Peters directed by Reginald Barker, the producer of "The Old Nest."

Langdon McCornack wrote the play from which the picture was adapted and which made New York stage history. "The Storm" was the sensation of a season and its dramatic possibilities were readily recognized by the

versal.

was demented, the doctor said, due to his spine wound and as the family he was boarding with claimed to be afraid of him and wanted him taken away from their home, it was our duty to provide for him.

I talked to Dr. Wilson about taking him to the Clearfield hospital, but he said they had no padded cell at the hospital and the man, LaPaine by name, had better be taken to the County Home for the present.

It then being too late to get in touch with the County Commissioners I went into their office the next morning and arranged with Commissioners Dale and Farrell to have the comrade placed in the home. When we went down to the Benedict home for him we found his uncle or brother had come on from Patton and taken him to their home.

If any one else wants to know anything more about this man's welfare send him around; we take care of our own members or comrades in distress.

Yours respectfully,  
A. D. NELSON,  
Com. V. F. W. No. 971
